JOURNAL OF THE SENATE
NINETY-FIRST GENERAL ASSEMBLY
OF THE
STATE OF MISSOURI
FIRST REGULAR SESSION

FIRST DAY--WEDNESDAY, JANUARY 3, 2001

The Senate was called to order at 12:00 noon by Lieutenant Governor Joe Maxwell.

Reverend Carl Gauck offered the following prayer:

Emilie Griffin wrote in her book "*The Experience of Prayer*", "The best reason to pray is that God is really there."

Gracious and Heavenly Father, we thank You for bringing us to a new beginning, in a new millennium and in a new century. You have provided us with a new type of leadership and new Senators and given us opportunities to do things in a new way. As we gather in this honored chamber let us experience Your presence that You may guide us to handle the challenges of a new and uncertain time and to meet the needs of and serve the people of this state more effectively. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

Senator DePasco announced that photographers from KOLR-TV, the Jefferson City News Tribune, the St. Louis Post-Dispatch, the Associated Press, KRCG-TV, KOMU-TV and the Senate had been given permission to take pictures in the Senate Chamber and gallery today and that guests had been given permission to use flash equipment.

Senator Kenney submitted the following appointments of officers for the temporary organization, which were read:

Secretary of Senate Terry L. Spieler

Sergeant-at-Arms Lester Marcum

Doorkeeper Ken Holman

Senator Kenney requested unanimous consent of the Senate that the above named officers be elected as temporary officers until permanent officers are elected, which request was granted.

The President Pro-Tem and the Co-Pro Tem shall appoint the members of their party; except that, in event a bill has two principal co-sponsors of different political parties, such co-sponsors may agree upon the number to be appointed by the Pro Tem and Co-Pro Tem respectively.**

Ladies and Gentlemen, distinguished guests, Lt. Governor Maxwell, Judge, friends and family,

It is once again my privilege and pleasure to address the Missouri Senate as we open a new year and new session of the Missouri General Assembly. Let me first introduce my special guests:

My wife Jane

My son Mark, my granddaughter Morgan and her mother Michelle

My daughter Rebecca, my grandson Nathan, granddaughter Marley and grandson Ethan, and

My son Randy and granddaughters Jessica and Amanda.

X X X X X X X

It gives me great pleasure to welcome back my old friends and colleagues...and to be joined by our new colleagues...Senator John Loudon, Senator Michael Gibbons, Senator Chuck Gross and Senator Bill Foster...I know how special this day is for you.

I want to personally congratulate you...and ask my fellow Senators and everyone in the gallery to rise and join me in welcoming these four new members to the Missouri Senate. The trust and responsibility your constituents have placed on you is tremendous. I know I speak for all of us here in welcoming you and offering to help in every possible way in your efforts to serve the citizens that you-and all of us-represent here.

X X X X X X X

Two days before Christmas, as most of you know, my house caught fire. Although there are many interesting things that go through your mind when your house is burning....what I found to be the most interesting is what you save when you only have a few minutes. What are the things important enough for you to pick up, while other things, far more valuable, you leave behind. It's not always the monetary things that you find are close to your heart, it many times is something that has no monetary value at all. As I was thinking about what I was going to say today, I realized that in the Missouri Senate I find myself in the same situation. The things that are close to my heart have no monetary value for me but are extremely important to the citizens of the state. I think we all need to remember during this upcoming session that the issues we work on and fight

for need to be the treasures that are close to our hearts and those that we are the most proud of.

These next four years will be my last opportunity to serve in the Missouri Senate (some will be very glad to see this happen). However, this means that in the next four years, I must accomplish as many things as possible in order to guarantee for my children, my grandchildren and all the citizens of Missouri a better life with more opportunities. All of those who know me, know how truly proud and fortunate I feel to serve in the Missouri State Senate. The responsibility to represent 155,000 people is awesome! For this reason, it is so important to me for all the Senators sitting here, old and new, democrats and republicans, to receive the highest grade in "playing and working well with others."

The thing that I have always found incredible is the fact that the Missouri Senate is one of only two chambers in the nation that is not divided by an aisle. In our Chamber, Democrats and Republicans sit side by side. When a Senator rises to speak, a person in the gallery never knows whether they are a democrat or a republican.

November brought one of the closest and most unusual election cycles in the history of our nation and in the history of this state. News reporters, political analysts and historians will spend a tremendous amount of time studying this election and trying to figure out what it all means.

I'm neither a reporter, nor a historian. But as a lawmaker, I want to listen very closely to what the people have said. I believe the election tells us a great deal about those we serve and how they wish to be served.

What can we determine by the closeness of the recent election? That in almost everything we do we will make half the people happy and half the people angry....

But what it really tells me is that the people of Missouri are not only looking for us to work together on behalf of them, but expecting us to work together to solve our upcoming tight budget issues, our transportation problems, our waste in government, our need for healthcare and education improvements among others. Let's not let their vote and message fall on deaf ears.

Because of the closeness and possible even split between Democrats and Republicans, other states will check on us to see how we handle this situation. Let's be sure we do not embarrass ourselves and our state. We are the Show Me State. Let's show ourselves that we can rise to the occasion and make ourselves proud!

Thank you

Co-President Pro Tem Kinder assumed the dais and addressed the members of the Senate.

President Quick, Lieutenant Governor Maxwell, my colleagues in the Senate, distinguished guests, ladies and gentlemen. For me to stand here on this auspicious occasion fills me with an emotion that I hope does not overcome me, but I hope you will understand the emotion that I do feel. No member of my party has stood here for 54 years, since 54 years ago, this week, the same oath was taken by the man who later distinguished himself as Judge M. C. Matthes, of Hillsboro, in Jefferson County. So, it is an historic occasion for that reason among many others. But, I really was not fully appreciative of the power of the moment until I saw this ballet, this minuet, if you will, between the two floorleaders, exercising coequal powers. There was something, I think something almost magic in that, and we've already done better than they've done in some other states under the same circumstances, because a few years back, in Florida, it took them three days to elect officers, when they were tied. So, we've already done better.

Many of you know that I am an avid reader, and in reading a few months back, I came across an Australian Proverb that I had never seen before that I thought appropriate for this occasion, to remind us, as temporary occupants of these offices and public servants. The proverb goes, "Today, a rooster strutting about, tomorrow, a feather duster."

There surely is a great deal of wisdom in that for us all to reflect on, as we scurry about these halls, and get called Senator this and Senator that. We also tend to speak too often of my district, and your district, and our districts. Of course, they're not my district, and they're not your district. In a much more important sense, they are the people's districts, and we are but temporary custodians of these seats. And that leads me to the subject of these inscriptions on the walls of the Capitol, and we see two in this chamber that we're always mindful of during debates and floor action where occasionally eyes drift up to those two fine admonitions. But I want you to know my favorite is contained just outside the rear of the Senate chamber, where it is inscribed in gold, over those magnificent doors out there, "Not to be Served, but to Serve."

Many of you know that last summer, it was my fate, my family's fate to have happen to us, what has happened to other members of the Senate family in recent years, extended family.

I got the call from the Georgia Highway Patrol, on the 1st of July, 2000, six months ago, this past Saturday, that my parents were in a very serious car accident. My father was a fatality in that accident. My mother was injured. My father was two months short of his 83rd birthday, that morning in July, when his life was cut short in that accident. Again, I say in a call, not unfamiliar to many of the families here today. I will never forget the response of the Senate family, that it threw its arms around me in the ensuing days and weeks. Fully, half of the Senate was represented,

personally, at either the visitation on Wednesday evening that followed, or the funeral service that Thursday morning, the 6th of July. And, I will also never forget, as a testament to what the Senate family is, and what it means, that on the plane the Senate organized originating here in Jefferson City, but mainly carrying our colleagues from the western side of the state, on that plane, were five Democrats, and two Republicans, emphasizing the Senator from the 17th's point, about how we don't divide by parties in this chamber, but each man and each woman is a Senator.

Now, I mention my father on the heels of that admonition, not to be served, but to serve, because I want to tell you a little bit about him, as how I think exemplifies that credo.

My father, unlike his third son, was no man of words. He was apolitical, nonpolitical. He had little use for government. He was no politician. He was a man of science, a graduate of one of our great universities, Washington University, both undergraduate and medical school, a medical doctor at the age of 23, before going off to service with the successor unit to the Flying Tigers in World War II, and then coming back and getting his speciality training, avoiding other more remunerative occupations in medicine that he could have chosen, that were his for the choosing, for the less remunerative compensation of the life of a pediatrician, which meant 80 and 90 and 100 hour weeks. He was the only board certified pediatrician between St. Louis and Memphis in those days of the baby boom. My father practiced that way in Cape Girardeau for 49 years, before closing his office four years ago this month, as he was closing in on 80 years old, but not to retire fully. But to go then to the county health unit in the poorest of South Cape Girardeau, there to take care of what the bureaucrats called an exclusively Medicaid population, continuing working into, through, and beyond into the ninth decade of his life, not to be served, but to serve. And, his example, is one that is uppermost in my mind today.

Now, we have many issues that we will obsess over, I don't doubt, this session. One is transportation, and I note that MoDot, the Commission, was meeting this morning down the street, taking momentous action on the bond money and disbursing proceeds of how we're going to move ahead in transportation in this state. I note that transportation was an issue in the late gubernatorial election without, it seems to me, a clear resolution one way or another. And in one of my conversations with the Governor-elect, following the election, this was our face-to-face meeting the week after the election, I mentioned it to him and he said, he will be coming forward with a proposal, and I eagerly await that, so that we can debate it on this floor, and I look forward to working with all of you on that.

Likewise, on health care issues, and prescription drugs, another issue that was fought out in the Governor's election, and I fully expect that we will be seeing many proposals in this session.

Now, a word about the budget, which we are told will be tight this year. We've had seven or eight straight years in which there was no question we would have a capital improvement bill, but such were the coffers overflowing to that extent, that we could always have a capital improvement bill, even way over \$100 million, for each of the last seven or eight years. That may very well not be the case we're told by the budgetary planners this year, and I know Governor-elect Holden has been hard at work on the budgetary issues that face him. But in the midst of this, our task has been complicated more by the ruling of Cole County Circuit Court that is now in the Supreme Court on the Hancock Amendment issues, saying we owe \$244 million in Hancock refunds. And I note that there have been some in elected office, and some in appointive office in our state government who have decried this and said that it's a terrible thing that we have the Hancock Amendment and that the people who brought suit under it are to be deplored and we're to somehow look upon them with disdain. I think it's time that we stop decrying those citizens, among us, those Missourians among us, who find that they must bring resort to the legal process to enforce the Constitution, and I think we ought to live by the Constitution and all its articles and amendments.

And, a word about tobacco issues that face us. Ideas on how to spend the tobacco money surely are as numerous as members of the House and Senate. They're as common as blackberries in July, and I don't stand before you to assert my ideas on how to spend that money. I will trust, as I will with these budget issues to the two chairmen of the Appropriations Committee, in great measure, who I expect to be the Senator from the 13th, and the Senator from Laclede, as veterans of that process, and they can help guide us through these many difficult issues. But I do commend to you in the true spirit of bipartisanship the letter authored by the Senator from the 13th, veteran budgetman that he is, dated December 7th, in which he identified for us a problem we face with this initiative petition that is in the field.

The initiative petition that has been filed and for which we don't doubt will get the signatures, presents great problems, it seems to me, as people who have taken the oath of office that we have just taken. It is hard to view it as anything other than a direct and sweeping attack on the constitutional powers of the members of the House and Senate to appropriate money and write the budget, and I ask you all to reflect on it as we consider the issues before us. That is something that all Missourians are going to have to think about before they take the extraordinary step of writing these percentages into the constitution the way it has been proposed.

Now, we hear much today about how we are evenly divided, as a country, and indeed, we have an even U. S. Senate, at 50-50. We have a very close margin, historically close, in the United States House. We have just finished one of the closest Presidential elections ever in American history, and the observer will note that much the same is true in the great state of Missouri. We just finished the third closest Governor's election in a century. We have a very close margin in the state House of Representatives, as we had the last two years, and we have a near tie in the Missouri Senate.

What I want to stress here is that although we Americans and we Missourians are very nearly evenly divided, the encouraging thing is that we are

not deeply divided. The distinction is crucial. Here is how one writer put it recently. "Many Americans and Missourians have a favorite party and a deeply held belief, and therefore, may find it hard to vote for the other party. However, most Americans do not find themselves actually alienated from their fellow Americans or truly fearful if the other party wins power. Unlike Bosnia or Northern Ireland, competing for power in the U.S. remains largely a debate between people who can work together once the election is over. I do most heartily commend that observation to you, and isn't that our task, to work together once the election is over?

I should like to introduce my special guests, my niece, Louisa Kinder is here with us today--my mother's oldest grandchild. And by the grace of God, over the weekend, Mom felt good enough to come--my mother, Mary Frances Hunter Kinder is here with us, as well.

In closing, I ask that we all remember that Australian Proverb, "Today a rooster strutting about, tomorrow a feather duster." And, we also remember that Capitol inscription outside our chamber, "Not to be served, but to serve."

President Maxwell resumed the Chair.

The Joint Committee appointed to wait upon His Excellency Roger B. Wilson, escorted the Governor to the dais where he delivered the following message:

I am going to have fun this morning. Whether you do or not is your business. I want to thank you. I want to thank everybody for the 24 wonderful years of public trust. It has been unbelievable. Let me assure you that nothing ever changes--I got 4 requests for appointments just on my way up the aisle.

To Governor-elect and our statewide office holders, it is a pleasure to be here with you. For all of us, our families -- yours and mine and our supporters, our friends and constituents -- this is an amazing thing that we get to do. It is just wonderful. My apologies for my family -- each of them had an assigned duty today and are not able to be here, but we have already talked about it and I received some adequate coaching on this presentation, so I hope it goes well. I also want to thank the people of the State of Missouri who are an amazing group. I have never seen strength exhibited like I did during the Flood of 93 or in the recent tragedy. There are a lot of people who make our job easier. I am going to list some and I am going to miss some and I really apologize. This is a neat environment and for all you new legislators, welcome. It will be a great experience and I think you will find my words are true -- you are going to enjoy your personal staff. They will keep more hide on you than you ever realized. I appreciate everybody in this capitol -- the maintenance people that make sure you and I have a beautiful place to come to work everyday. Those that work hard and pay their taxes, educate our kids and take care of our mentally ill; the Capitol Police, the Print Shop, the people in the cafeteria, House and Senate and Legislative Research that we rely on so much; the Senior Staff of both Houses and in the Governor's Office; Enrolling and Engraving; and our Doorkeepers, Chief Clerk, Secretary of the Senate, Senate Administrator -- they really keep us glued together and make us look better than we deserve. You know it and I know it.

Everybody is special, but we have a group that is assembled for a special reason -- the Governor's Youth Leadership Conference. They are seated right up here. I would ask that you recognize them. I would ask that they stand. Take a good look because when we are sitting on a nursing home porch in our rockers, they will be running this state. They are going to take great care of us.

I want to thank the press and I know you think I am just sucking up to you for a future run but that is not the case. I do want to thank them because information is golden, it really is and you know that we can talk about disinformation or bad information, but everybody can share a little guilt, but I especially want to thank them for the decorum that they exhibited during the funeral of Governor Carnahan. We dealt with them and they were perfect. They did a wonderful job and I wish you would thank them for that. They are mad at me this morning because they asked for a copy of the speech and John Robinson had to finally tell them well Roger hasn't finished writing it yet, so you don't get it. That is the only reason you don't have one.

I love the House and the Senate. I somewhat regret the fact that I didn't get to serve in the House because I certainly enjoyed enough of its raucous humor. A lot of it was at my expense, but I certainly enjoyed it and there is this energy over here that is amazing to watch and it is different from the Senate. I have had some wonderful friends in the House and I thank you so much for your friendship. I also appreciate the tough decisions that you have had to fight your way through and yes you will get some more this year. I regret that. I wish some of these things I or all of us collectively could have taken care of. Governor-Elect Holden has my best wishes and he will have my support. I will say it right now -- Bob Holden deserves everybody's support regardless of party lines. President George Bush deserves everybody's support regardless of party lines. We have got too much at stake whether it is opportunity or a threat to risk letting something important fall through the cracks because of a lack of civility or a mistaken importance of either pride or power. I hope that this General Assembly and this Governor will be able to work very well together.

For you young legislators, I have some warnings -- the minute you see a senior legislator stand up and start to tell about a conference committee that they were on about 20 years ago and get ready to quote and every member of the conference committee is deceased -- just put your seatbelt on. You might want to revamp your approach if you get a consent bill killed. One of my favorite lines uttered in the Missouri Senate was Senator, I will never lie to you on the floor. And another of my favorite lines was uttered by Senator Emory Melton. Senator Melton had worked and worked on a Social Services Bill to get it amended. He still didn't like it and probably wasn't going to vote for it. The sponsor who had suffered all of the amendments, finally said, Senator isn't that good enough and he shrugged and said bad breath is better than no breath at all.

You are going to suffer some embarrassments while you are here, so just get used to it. This is a fishbowl. You are in the public eye and none of us are perfect. Let me share a couple of my embarrassing moments. One happened not too many years ago. I was down at the Capitol Plaza Hotel and I noticed several House members in the audience. So I started naming a few and I thought oh this is going to be kind of bad. I got about 8 or 10 named and I said now have I missed anybody. About 18 hands went up. You can weather that stuff, as long as you have a sense of humor, you can stand your own frailties and I encourage you to think about that.

On government, I've always looked at it in a couple of ways but one that's never changed is that we have some producers and we have users -- users by necessity, but nonetheless, users. The producers are our manufacturers -- our retailers, the people that we can reach through economic development, helping with tax credits or anything else.

Agriculture, you guys did some great things last year and I look forward to the funding of some innovative agricultural themes this year. That's going to help. If you really want to do something to help agriculture that's what you're going to do is make sure that that funding gets in there. Because some of these new co-ops out here that are trying to help the family farms make it need our support. And, maybe it's not enough right now but, boy, it's a good start. So, you keep it up and you keep going there.

Tourism -- Senator Danny Staples will be introducing a Senate bill to enhance the tourism formula and I am making a personal request that you pass that legislation and that you enhance the formula. Because I have never seen a better marriage. What I've seen between the industry, the legislature, the public and the division of tourism -- it's just fantastic. You put them on a production basis a few years ago with House Bill 188, and they've done a marvelous job. And that board is one of the best boards in the state. So, if you would (not that Danny needs any help) give Danny all the help you can on that. I would hope that a house member on the tourism committee would introduce that too. It makes sense. It makes sense because when ag. produces, when tourism produces, when manufacturing and retailing produce -- then you can take care of mental health, school children, seniors, corrections. But, we've got to have them strong and I think you can do a few things this year that will really tweak that in a wonderful form.

I sent all of you a letter on Aging. I don't know if you've gotten it yet -- I don't know if you've read it yet. But, obviously I believe very strongly that aging has had some problems in the past and I think we ought to address them. And I had some choices; I could have just done some housekeeping and gone on. But, I'm not going to look back on my career and think -- Rog; you were there for two and one-half months -- why didn't you do something about it? So, I'm asking you to help me move the Division of Aging from Social Services (which is overcrowded) to the Department of Health, which has some very nice horizontal connections in it. And, let's help both departments. Give Social Services some breathing room and give Aging some more attention at the Governor's table. Because, I truly believe in about six to eight years, when baby-boomers become senior-boomers, you and I could have a problem very similar to what we have now with highways, that we're going to wrestle with and bring to the ground somehow. But, I don't want another one coming right behind it just as soon as you get that done. Let's give ourselves

a chance for some elevation of senior issues, and get those things debated, get them heard at the budget level and the Governor's table level, so that they don't sneak up on us in a few years. If you need a little more proof of the pudding, for those of you that are new, we've had 14 directors in 20 years. That's an abysmal record. That's no concentration. That's no consistency and we need to change it.

I would like to see a few efficiencies in the budget too. I've heard that the hiring freeze is me trying to make sure that Bob's got some slots to fill. (See, I listen to the radio, Merrill -- and I love you.) But, I'm telling you; you have a little bit different budget to deal with this year. And, after you've wrestled with it for a couple of months you're going to realize that. And, it's not going to be as much fun as some of the other years have. But, it's something I noticed when I was appropriations chairman and I think we ought to re-institute it every now and then. My proposal today would be to reduce the FTE number, starting today, by 500 people. That's not big -- out of 60,000 -- but it's significant. And, I'll tell you right now, I'm probably taking the easiest 500 and Governor Holden is going to be left with some tougher decisions. So, don't think it's all done even if we get this done. It will free up some money, and, yes, we're having trouble with revenues meeting expectations. Hopefully, that's going to improve and we'll keep a closer eye on it. But, I think this kind of flexibility is important for budgetary reasons. But, I also think that the people that ought to control how many places sit vacant, or how many people you actually allow to a department, are the people that receive the votes. Whether it's in the executive branch or the legislative branch, and I don't think the padding (and I'm not demeaning any department heads) needs to be there. I think you are the ones that need to assign those resources. And, so, when these 500 are cut (and by the way, those are vacancies) I told you they were the easiest ones. I would like you to take some of that money and plow it back into a few of those departments because the reason for some of those vacancies is because the pay is so low, and the work is so hard with direct services (whether mentally ill or others) that we just can't keep people hired. So, if we really want to serve the people that we're actually talking about serving, then let's get serious about it and let's try to get people on hand to help take care of them. And, if we have to raise a few salaries then I think we ought to do it.

While I'm on state workers -- I have a real strong feeling that they/we all have an obligation -- if we actually think we can run a democracy -- if we're not good, we better get good. And that goes for everybody (myself included) to the newest employee of the state. And I think we've had a pretty good attitude for the last eight years in trying to bring people out and do that. I hope that that can continue because it's going to be very important for this next administration. I also want to say that a lot of state employees have jobs that you and I would not take. We wouldn't have them -- we wouldn't even apply for them. I don't think it's fair to use them as punching bags when they are out there working in the Biggs Unit, when they're out there on a highway (and the highest mortality rate in state government is highway workers out there). I know it's easy to kick around, let's just don't do it -- let's just don't do it. If you really want to build a team spirit, if you really want to build a team spirit, you have to lift people up. And you have to tell them when they come into those appropriation hearings, or when they come into your senate and house hearings you have to ask them legitimate questions about "how are you going to get it done?" And, we always do that, but I also know we also take some "pot shots", and, yes, I'm guilty. Let's slow it down, let's give them a chance and let's encourage them. Because I've seen some great work out of them, I've seen them do some great things and I think they deserve better than some of what they've gotten in the past and for that I apologize.

Now, this is a little fun thing I want to do. And it only cost about \$30 million. Back in 1918 when the Capitol was complete there's a drawing of a riverfront entrance, and it's gorgeous. As a matter of fact, Senators already have a copy of that, along with some supporting documents on their desk that they'll receive when they get back. And, as soon as this speech is over each of you will receive a packet. But, a river museum will do several things that I would like to encourage you to do. It would provide more office space close to the Capitol. Possibly with an entrance that you don't have to go outdoors to use. It would provide more parking. It would provide a place for school children to come in and be weather-covered on Amtrak. It would provide a place for us to memorialize Lewis and Clark, which is coming up in 2003. And, if you would grant me this, I would request that a portion of that space be taken up for a memorial to Governor Carnahan. It is beautiful, and it is expensive, and I really feel guilty about coming to you and talking about money when I don't have the source in hand. All I can tell you is I will try to help. It's something that's worthy. It's something that our constituents would enjoy. It's a way you can help tourism. But, more importantly, it's something that will make us more efficient and make Missouri prouder of their seat of government. I hope you enjoy looking at that package. It enthused me the first time I saw it and I hope it enthuses you.

All right, now is the time on the program for a couple of rants. I've noticed that in my speech pattern. And, there are certain things that I really don't have a solution for exactly, but they really burn me up so I want to get everybody thinking about them. Gripping has become a national pastime. That's the kind of thing we can fall into. Why has it become a national pastime? Because we've got it so good. How many people in here have lived in a house without electricity? How many people in here have lived in a house without indoor plumbing? Do we have it good? Yeah, we have it good -- we have it great. So, what have we done with our spare time? We fill it with a little gripping. Let's change it and let Missouri be the point of impact. Let's really let that happen. Okay, I'm feeling better -- that's good.

Educational peeves -- I don't want teachers blamed for educational problems that have nothing to do with them. A fifty-percent divorce rate and a drug problem are not caused by teachers. They are absolutely our front line on trying to fight a lot of that. Let's try to give them some real help. We've passed laws to punish people that misbehave around the school but I think we're going to have to figure out (even with the safe schools act) how is it that you and I show our support of those teachers? And, you know what, that's not where the real responsibility lies. Pat and I tell the teachers of our children that they're right. And, even if they're wrong, our children have the obligation to be smart enough to figure out how to get along in that classroom so 28 other people's education isn't interrupted. And, until we start giving them that kind of support then let's don't look at teaching or the administration or the legislature. This is something that is the job of 5.4 million people. And if we can handle the Carnahan tragedy and if we can handle the flood of '93 then shame on us for not being able to handle this. Okay, this guy's writing is terrible.

On higher education -- taxpayers, legislators, governors, are working their heads off to try to fully fund higher education. Look what you've done with the A+ program, look what you've done with bright flight. Look what you've done in community colleges. You talk about neat, I didn't think that was possible when I came here in '79. You have done some remarkable things and we can do some more. And, I want you to keep trying. But, I do want to correct the thought process too. I've spoken on several university campuses and I've always dropped this bomb there but I want to drop it here today publicly too. I've asked a lot of people -- how many people are getting public assistance with your education? Well, unless they have a student loan or are getting a scholarship or something they don't raise their hand. There is a misunderstanding -- there is a misunderstanding. I've had to tell college group after college group after college group that you go out there and thank the person that's running the convenience store that may only have an eighth-grade education because they go to work every day and help pay for your education. And, we've lost the message someplace and it's got to get back. A lot of people think tuition is going through the roof. Not that we have an ungrateful group of students -- this group is capable of running the world. But, you know what, there's too few thank yous in this world especially to unrecognized taxpayers and voters. And that's one way to do it. I think a college student ought to walk out and tell that person thank you -- just ad hoc -- it would be fun. Now, you've been nice. Oh, don't forget, Schneider for judge.

Let me thank you for all of the hospitality and kindness that you've extended to me and my family over all these years. And, if you really want to thank me you just take good care of your family. That would be a great thank you. And, take care of this big family that we've got that have selected and sent you here. I've said it before, the flood of '93 just showed me something that totally amazed me. It was unbelievable to see the amount of strength that this state had. And, the respect and strength that I saw during Governor Carnahan's funeral. And, even now, Bob can feel it and I can feel it -- we can all feel it. There is a respect and reverence here that I hope that we can maintain because it's really going to be good for us. It's going to help us maintain the civility that we need. But, I also observed something that just amazed, because I'm ashamed to say it, even to my 52nd year I took it for granted. What we were thrown into was an unbelievable circumstance. And, the thing that caught all of us, and part of the strength of our state, was our constitution. I'd always had an admiration and respect for it but I'd never had an understanding of how it could perform. You and I are of a generation that has now seen it perform. So, protect it, improve it if we can, but I think you can rest easy at night -- this 200 years of democracy that we've lived through has us so well protected. And, all we have to do is protect it. Thank you and goodbye.

On motion of Senator DePasco, the Joint Session was dissolved and the Senate returned to the Chamber where they were called to order by President Maxwell.

Journal of the Senate

FIRST REGULAR SESSION

THIRD DAY--MONDAY, JANUARY 8, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

"David praised the Lord...Yours Oh Lord is the greatness and the power and the glory and the majesty and the splendor, for everything in heaven and earth is yours." (I Chronicles 29:10a, 11)

Gracious Lord, we thank You that we are here to work and celebrate an important day for the people of Missouri. We rejoice for the work we have to do here in the Senate and in finding avenues of cooperation with our new Governor and the Executive Branch. Guide us in our deliberations, our decisions and our play this long day and may we, like David, give You praise for all You have provided and done for us. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

GOVERNOR HOLDEN'S INAUGURAL SPEECH

January 8, 2001

Today we observe the beginning of a new century. But more importantly, we bear witness to the beginning of a new vision: one bright future, one Missouri.

Only three short months ago, Missourians stood together with the Carnahan and Sifford families in their hour of need. The power of our shared grief made us all stronger.

Thank you, Jean, for the grace you have shown during these difficult days. You have made all of us proud.

Through these challenging times, we have supported our new Governor as he carried out his duties with honor and dignity. His compassion and good humor have lifted our spirits. Thank you, Governor Wilson, for your leadership.

As we reflect on these events, we realize that sometimes it's in the worst of times that we discover the best in ourselves. We came together and moved Missouri forward.

That same power that brought us forward in sorrow can now bring us forward in success. The power of shared common goals can break down any walls that separate us, whether those walls are constructed from personal ideology, special interests, or regional concerns.

The dawn of this new day brings new hopes and new beginnings. Today our dawn has come...the awakening of a new century and a better Missouri.

Our past sunsets have brought us a multitude of gifts. We have unlimited resources--a central location, two international cities, two magnificent rivers, rich farmland, an evolving life sciences corridor, and one of the most talented and productive workforces in the world. These resources and the excellent leadership of the past eight years have carried us far.

Missourians are safer, healthier, and better educated than at any time in our history.

But we cannot...we must not...rest on these accomplishments. Our prosperous past only holds meaning for Missouri if we fulfill our potential for a glorious future.

As we begin this first administration of a new century, I call on all Missourians to reach new heights. Do we have the will? Will we have the courage? Can we summon the imagination to lead?

Missourians of the past have provided the example for us to follow. We live in a state that has produced pioneers such as Harry Truman, George Washington Carver, and Phoebe Apperson Hearst. A state that built the first mile of interstate highway and established the nation's first kindergarten. A state that educated a young woman named Linda Godwin in rural Missouri and sent her into space.

Our history has prepared us...Almighty God has blessed us...with the opportunity to make a difference.

In the words of the famous poet Robert Frost, it is time Missouri took "the road less traveled by" and that will make "all the difference" for our future generations.

With this shining new century, let us think anew. Let us dream anew. Let us build anew.

The ideas, principles, and progress of our past architects have provided a solid foundation. Now we must build a Missouri that we will be proud to pass on to the generations to come. One Missouri that supports the most vulnerable citizens--our young, our poor, our sick, and our elderly. One Missouri that offers the opportunities for our Missouri families and businesses to grow. One Missouri that gives all our citizens the chance to succeed.

Our one Missouri will find its character in our resolve to foster healthy bodies, strong minds, and respect for each other...

its strength in our commitment to giving every child the best possible education...

its prosperity in fostering a well-trained and highly skilled work force.

Our one Missouri will find new prominence in the world marketplace by developing a broader transportation system that is second to none.

Our one Missouri will preserve its future for our families by protecting the environment.

However, the greatest barrier we have to building one Missouri is ourselves. We can no longer think in terms of urban vs. rural, black vs. white, Democrat vs. Republican, St. Louis vs. Kansas City, or the countless other interests that seek to divide us. We must come together to find common ground.

It is time Kansas City and St. Louis realize they live in the same state. These two urban titans must work together to make Missouri competitive in the global marketplace of a new century.

It is time our rural communities and urban centers work together for the good of all our citizens. It is time we judge people by the "content of their character," not by "the color of their skin."

It is time we respect all people--paying respect to the integrity of their views, even if we disagree with the substance of their policies. For we are one Missouri--one bright future.

One of my personal heroes in public service, Robert Kennedy, was fond of quoting English writer George Bernard Shaw, who said: "Some men see things as they are and ask why. I dream things that never were and ask why not."

Over the next four years, this administration will continue to dream of those possibilities and dare to ask "why not." We will set our sights on what can be, not what has been.

This administration will lead by example, guided by the principles instilled in me by my parents, my teachers, my heroes, and my family.

Those principles taught me that this administration should never be about any one person--it is about all of us. As a young boy growing up on a farm in southern Missouri, I had parents I love and respect more than they will ever realize.

They believed each generation bears a responsibility to both the generation past and the generation to come. So to our seniors and our children, let me say: my administration will work for you.

As a student who started in a one-room schoolhouse and became the first in my family to graduate from a state university, I was fortunate to learn at the hands of excellent teachers who unlocked doors to opportunity with the knowledge they gave me. Our second son is named for one of those teachers. My administration values those teachers and the future minds they will mold. My administration is for them.

As a college student inspired by heroes such as Robert Kennedy, who sacrificed his life on behalf of a better life for others, I dedicated my life to public service. My administration is for all public servants who believe they can make a difference.

As a partner to my wife Lori and father to our sons, Robert and John D., I have found that nothing is more important than shaping a world where families can share bonds of love and success. To our Missouri families, let me say: we are families who share common backgrounds and uncommon opportunities.

And I will use that knowledge and understanding we have been given to improve Missouri for all families. My administration is for you.

The goal of my administration is to unite all Missourians in forging a bright future that holds maximum opportunities for each of us. I understand your concerns, and I share your aspirations.

I was born in Kansas City, raised on a farm in south central Missouri near a town called Birch Tree, represented Springfield in the Missouri General Assembly, worked in St. Louis, and am glad to be able to say that for the next four years we can continue to call Jefferson City our home.

Yet no matter where I have lived or worked, no matter what the regional interests or issues, I have seen one common conviction that all Missourians share: a faith in our capacity to do better.

This optimism and determination have brought us far in the past, and I believe they can propel us to greatness in the future. The world witnessed such optimism and determination from Great Britain during World War II. At that time, when this island nation was fighting alone to keep freedom alive, the British people were inspired by the new leadership of Sir Winston Churchill. As he stepped forward to assume the role of Prime

Minister, Sir Winston said: "I felt as if I were walking with destiny and that all my past life had been but a preparation for this hour."

History holds many lessons, and this chapter certainly sends a powerful message to us today. If unity of the human spirit can lift a people to triumph in a time of such turmoil, just think...just think what we can accomplish if our hands, our hearts, and our minds are joined in this time of unparalleled opportunity.

Our past has prepared us for this hour, and from this day forward, we will direct its destiny. We have the vision and the passion to make this our "finest hour," as we embark on a journey of opportunities. Let us take that journey together. With your help and with God as our compass...let us meet the responsibilities that lie ahead.

Let us walk confidently into the 21st century and make it Missouri's century. Let our legacy be one bright future--one Missouri.

Thank you.

The Statewide Inaugural Choir sang.

The Benediction was pronounced by Rabbi Susan Talve, Central Reform Congregation, St. Louis, Missouri.

The audience remained standing, and Governor Holden was escorted from the platform by the Legislative Inaugural Committee.

Co-President Pro Tem of the Senate, Senator Peter D. Kinder, adjourned the Joint Session of the 91st General Assembly.

On motion of Co-President Pro Tem Kinder, the Joint Assembly dissolved and the Senators returned to the Chamber where they were called to order by President Maxwell.

By virtue of the authority vested in me by the Constitution and laws of the state of Missouri, including the Omnibus State Reorganization Act of 1974 and sections 26.500 through 26.540, RSMo, I hereby transmit the Division of Aging and Department of Health Reorganization Plan of 2001 (attachment A), which provides for the transfer of the Division of Aging from the Missouri Department of Social Services to the Missouri Department of Health.

ROGER B. WILSON

Governor

(Attachment A)

REORGANIZATION PLAN

GENERAL BACKGROUND

This plan would rename the current Missouri Department of Health to the Missouri Department of Health and Senior Services and incorporate the Division of Aging currently located within the Department of Social Services into the renamed department.

The Missouri Department of Health is responsible for protecting and promoting the health of the population of Missouri. This is carried out through the assessment of the population's health, identification of health threats and needs, development of policies and priorities, and the assurance of appropriate responses. We implement these core public health functions through collaborative relationships with public and private entities, communities and citizens.

The Division of Aging currently located in the Missouri Department of Social Services is charged with promoting, maintaining, improving, and protecting the quality of life and quality of care for Missouri's older adults and persons with disabilities so they may live as independently as possible with dignity and respect.

SPECIFIC DEPARTMENT STRUCTURE

The reorganized Department of Health and Senior Services will be directed by a Department Director who will have a Chief Operating Officer and two Deputy Directors that report directly to the Director. The Director through the Chief Operating Officer and these two deputies will be responsible for the management of the Department and administration of its programs and services. This includes daily operations and Departmental functions such as those listed below.

The Chief Operating Officer will support and provide oversight for the activities of:

- Operational Offices: *Personnel, Legal, Governmental Policy, Public Information, Training and Professional Development, Women's Health, Minority Health, Epidemiology, Emergency Response/Terrorism*
- Division of Administration: *Fiscal, Administrative and General Services support to all department units*
- Center for Community Development and Health Care Access: *Community development and enhancement of health care access*
- Center for Health Information Management and Evaluation: *Statistical support and health care assurance activities, information technology, technology research and development*

A Deputy Director will support and provide oversight for the activities of the Division of Senior Services and the Division of Health Standards and Licensure.

- Division of Senior Services: *Home and community services program and program of immediate assistance which provides support for older persons and persons with disabilities between the ages of 18 and 59, all of whom live at home. In addition, assistance for persons who encounter abuse, neglect or exploitation.*
- Division of Health Standards and Licensure: *Long term care facilities, health facility regulation, child care licensure, emergency medical services, controlled substance registration, and other institutional programs*

A Deputy Director will support and provide oversight for the activities of the health and public health functions of the Department of Health and

Senior Services.

- Center for Local Public Health Services: *Local public health system support*
- Division of Chronic Disease Prevention and Health Promotion: *Combats the major causes of premature death, illness, disability and medical costs*
- Division of Environmental Health and Communicable Disease Prevention: *Investigation of cause, origin, and method of transmission of communicable diseases and diseases caused by environmental hazards*
- Division of Maternal Child and Family Health: *Promotes optimal health by programs designed to meet the health care needs of families*
- Division of Nutritional Health and Services: *Nutritional services and support, population-based surveillance to determine the nutritional status of all Missourians*

OTHER RELATED ISSUES

In addition, the following change will occur by legislation and transfer.

- Using the same statutory model as the Board of Health, a **Board of Senior Services** will be created. Both Boards will advise the Director of the Department of Health and Senior Services on issues relating to their respective areas of expertise.

A Memorandum of Understanding will be developed between the current Department of Health and the Department of Social Services and carried forward to the renamed Department of Health and Senior Services and the Department of Social Services that will provide guidance for the smooth transition and maintenance of specific issues that impact staff and services of both departments.

These Memorandums will include, but not be limited to, issues relating to accounting, chain of command for interim reporting, contracts, data processing, FY02 budget to be transferred, if passed, grants, hiring, legal services, office space (including leasing, utilities, telecommunications, etc.), payroll, personnel and office resources, purchasing, SAM II, state cars, any collective bargaining agreements, vacancy management and warehousing issues.

The Joint Committee appointed to wait upon the Chief Justice of the Supreme Court, William Ray Price, Jr., escorted the Chief Justice to the dais where he delivered the State of the Judiciary Address to the Joint Assembly:

State of the Judiciary 2001

Chief Justice William Ray Price, Jr.

January 10, 2001

Mr. Speaker. Mr. President. Members of the General Assembly.

On behalf of the judges of the state of Missouri, it is a pleasure and an honor to deliver this 28th State of the Judiciary address.

At the outset, let me commend you, both members of the House and members of the Senate, for resolving your issues of leadership. I am certain that each side had hoped for more and that each side had clever strategies in place in the event compromise was not reached. But, you were right to take the high road and to avoid the partisan chicanery that so tires our people. Centuries ago, Sir Francis Bacon noted that:

Nothing doth more hurt in a state than that cunning men pass for wise.

You acted with wisdom and dignity befitting the high honor of the House and of the Senate. I commend you.

Now, just the second day after our inauguration ceremonies, the sense of a new beginning is overwhelming. New faces and new dreams; all in hopes of a brighter future for the people of Missouri. You have the important task of charting the path for our government and people to follow.

Our role in the courts, though equally important, is much more limited. We resolve disputes. We have no power until litigants come to us with a real controversy. When they do, we are not free to choose any resolution. We are first bound to honor our national and our state constitutions. We then follow the laws that you enact. We attempt to do this as fairly and as faithfully as we can, reading the words you chose as simply and accurately as possible. We are not free to do what we might think is best otherwise, nor are we free to do what we might think you meant otherwise. We may only follow the words of the statutes as you have actually written them.

I know some of you are wondering why I am taking time to say this. But, sometimes it is best to say, out loud, the important rules we live by, so there is no confusion between you and us. It is our desire as judges simply to follow and interpret the laws of Missouri, not to chart new paths on our own. That is what the people elect you to do. Your duty in this regard deserves the highest care both in your thoughts and your words.

I am pleased to report to you that the wisdom of the Missouri Plan for merit selection of appellate judges, again, leads the nation. While contested elections in Michigan, Ohio, and Mississippi involved the expenditures of millions and millions of dollars of special interest money, one Missouri Supreme Court judge and three judges of our Court of Appeals were retained without a penny of fund raising or expenditure and without a single negative advertisement.

The Missouri Plan has also shown its value in the diversification of our appellate courts. Our past four appointments--Sherrie Sullivan, Thomas Newton, George Draper, and Ron Holliger--include two African American men and a woman.

Let me be clear. The Missouri Plan is the example to the nation of the best method for selecting appellate judges. It deserves our continued respect and protection.

We at the Supreme Court are sad that Ann Covington is resigning at the end of this month. As the first woman to serve on our Court of Appeals and Supreme Court, she has played a pivotal role in the history of this state. She played that role with dignity and grace. We will miss her.

We have confidence that the Missouri Plan will serve us well in selecting her successor, but you should note that this is the second judge of the Supreme Court in the past three years to leave the court prematurely to return to the private sector. Last year, Judge Albert Riederer left the Court of Appeals to do the same. These actions speak louder than any words I can say.

As I said before, our core function is to decide lawsuits. For better or for worse, the people of Missouri are still turning to the courts for the resolution of their controversies in great numbers. Last year, approximately 962,000 new cases were filed. Our courts resolved approximately 917,000 cases. We continue to focus on timely resolution of the lawsuits brought before us, and we continue to transfer judges around the state to equalize caseloads.

I am pleased to report that again:

We disposed of 80% of civil cases within 18 months;

We disposed of 91% of domestic cases within 12 months;

We disposed of 85% of associate civil cases in 6 months

and 94% within 12 months; and

We disposed of 85% of circuit court felony cases within 8 months.

Unlike many other states, there are no massive backlogs in our courts and Missouri litigants are able to obtain trial dates as they are needed. We are grateful to the hardworking judges across the state who make this possible. We are also grateful to you for providing the necessary resources for us to do our work.

Last year, I spoke to you about two areas of priority that we would focus on in our administrative capacity, court automation and drug courts. I am pleased to report to you that significant progress was made in both of these areas.

This past calendar year, the Missouri Court Automation Project more than doubled the number of circuit courts in the state benefiting from its case management system. As of today, 15 judicial circuits, consisting of 32 counties, the Supreme Court, and all three districts of the Court of Appeals are now online. During the remainder of this fiscal year we plan to add six additional judicial circuits including 16 counties in the southeastern portion of the state. By July 1, 2001, almost 41% of our caseload and almost 50% of our citizens will have access to the benefits of court automation.

We have kept our promise to use new monies to roll out court automation across the state as quickly as possible. It is crucial that this project be completed.

In the next fiscal year, we plan to add another ten judicial circuits consisting of 27 additional counties: Scotland, Schuyler, Clark, Carroll, Ray, Randolph, Howard, Lafayette, Saline, Benton, Dallas, Hickory, Polk, Webster, Atchison, Gentry, Holt, Nodaway, Worth, Linn, Chariton, Sullivan, St Louis County probate division, Jefferson, Henry, St. Clair, and Bates. This will increase the benefits of automation to 55% of Missouri's caseload and 76% of Missouri's population. To stop this project halfway, having favored many of our counties, but leaving the others out, would be unthinkable and most likely irreversible.

The usefulness of court automation extends beyond mere judicial record keeping and affects the lives of our citizens in very real ways. In Fulton, Missouri, we developed a pilot site linking an elementary school, a middle school, and a high school to the courts and to the local juvenile officer. The system allows the immediate online exchange of juvenile court and protective custody information, as well as the names of students who have received detention, tardiness, truancy notices, and incident reports.

The need for such a system was quickly apparent. A student moved from Boone County to Fulton without telling her juvenile officer. A school guidance counselor made an inquiry and within 10 minutes learned that the student had a scheduled court appearance for the next day. Without the pilot project, the student would have missed the court appearance and would have gotten into even worse trouble.

Another example of the need for a statewide system of court automation also comes from Callaway County. A mother there was hospitalized with no one to care for her 14-year-old son. The boy was placed in a foster care home so that he could be provided for safely. The home included several other young children. What was not known was that the 14-year-old boy was accused in another county of allegedly sexually molesting children. The failure to have a statewide computer system linking court to court and court to juvenile officer allowed for well-meaning state employees to create a very dangerous situation for the children already in that home. We all need the Missouri Court Automation program to go forward.

Another area of important progress in the past year has been drug courts. As you recall, drug courts provide treatment to non-violent offenders under intense judicial supervision, most often as an alternative to incarceration. We now have 22 adult felony drug courts, 7 juvenile drug courts, and 2 family drug courts. Another 21 adult drug courts, 7 juvenile drug courts, and 6 family drug courts are in the planning stage. Twenty-eight additional counties are considering drug court programs.

The benefits of drug court programs relative to their cost is clear and compelling. As of July 1, 2000, 1147 individuals graduated from Missouri drug courts at an average cost to the state of \$5,042 a person. The recidivism rate for these individuals was about 5%. The cost of incarceration for these individuals would have been at least \$12,700 a year. The recidivism rate for drug offenders who have not graduated from drug court is about 45%.

Listen to those numbers again: \$5,042 a year for drug court compared to \$12,700 a year for incarceration; 5% recidivism rate for drug court graduates compared with a 45% recidivism rate otherwise. If you have to think twice, consider this. Twenty-five drug free babies were born to drug court participants. Estimated hospital savings for those new babies begin at \$4,300 per child. But, how can you even begin to value the hope that now can exist for these new lives?

Just two weeks ago associate circuit Judge Patricia Joyce from here in Jefferson City sent me a copy of a letter she received from one of her drug court graduates. The letter was titled "Gratitude". Let me read parts of that letter to you.

As this year is coming to an end, I have looked back to where I started....I was once again full blown into my addiction...with the same results jail or D.O.C....But by the grace of God my cry for help was answered....I was given the opportunity to receive help for my addiction instead of being locked away as I have [been] so many times before....I could go on forever...to express my gratitude for the people in my life to this day [who] have helped me change from criminal activity to a responsible citizen....I know I have a long way to go and...the road...will be hard....I am very thankful for having this opportunity to start living again...

The author of this letter is now gainfully employed and plans to enroll in college this coming semester.

Drug courts are one of the rare opportunities in government where the least expensive alternative works the best to truly help people in need. We again ask that you support this program.

We again ask that you coordinate the disjointed method of funding this important work so that it can be administered as efficiently and as effectively as possible.

There is one other area of work that I did not speak about last year, that I need to talk about now. It concerns our attempt to speed up the process for the permanent placement of our children who are in foster care.

When it is so dangerous to leave a child with his or her natural parents that the state must intervene and remove the child, then it is the state's obligation to determine what to do with that child as quickly as possible. Although we owe our deepest thanks to those individuals who serve as foster parents, leaving the child in an endless legal morass of foster care is not the answer.

Three years ago, we initiated two pilot projects to see if we could shorten the time to adjudicate permanent placement for these children. One pilot project was in the 2nd judicial circuit under the supervision of Judge Russell Steele. The other was in the 23rd judicial circuit under the supervision of associate circuit Judge Carol Bader. We learned that with aggressive case management and close judicial supervision we could reduce a child's stay in foster care by an average of 105 days, at a savings of \$25 a day per child.

We would like to expand these pilot projects into 5 additional circuits. We have shown that any dollars committed to speeding our foster children to new permanent homes will repay themselves many times over. And, of course, it is the right thing to do for our most unfortunate children.

This is the only opportunity I have to address you as a body for the coming session. Although there are many other matters I could talk about, I have limited my remarks to those that I believe are most important for you to hear. Matters that I believe are most important for the people of Missouri.

I would like you to remember that we are performing our core function timely and well. We do not want to slide backwards into massive backlogs that would delay, and in some cases deny, our citizens access to the courts for the resolution of their disputes.

In our administrative capacity, we attempt to focus upon those matters that are of crucial importance and that have the promise of improved usefulness and efficiency.

One of those areas is statewide court automation. Our new system is working. The project is halfway done. We cannot stop rollout now.

Another is drug courts. They make moral and fiscal sense. They need to be expanded both geographically to new counties and to family and juvenile settings. Funding needs to be coordinated and administered to assure the greatest possible efficiency and effectiveness.

Finally, we need to improve the manner in which we care for our children who have been removed from their natural homes. Resources are needed to expand our two pilot sites into 5 additional counties.

I know that this will be a very difficult year for the state's budget. Everyone will be coming to you with worthwhile programs, all seeking the same money. Please remember, justice is not a luxury to be financed only in good times and cut back in bad times. Justice is the dream of our people that allows them to have faith in their government. It is no mistake, that its promise is how we end our pledge of allegiance.

Thank you. I wish you the very best in your service to the people of Missouri in this session of the General Assembly.

On motion of Senator Kenney, the Joint Session was dissolved and the Senators returned to the Chamber where they were called to order by President Maxwell.

SENATE RESOLUTION NO. 90

WHEREAS, the members of the Missouri Senate are always pleased to acknowledge important events of great significance to the history of this fine state and its many outstanding citizens; and

WHEREAS, Jasper County will mark an impressive milestone on January 29, 2001, with the celebration of its One Hundred Sixtieth Anniversary by all those proud citizens who are so very fortunate to call it home; and

WHEREAS, organized on January 29, 1841, Jasper County has a history of one hundred sixty years that evolved at the first courthouse, a log cabin constructed in the early 1830s which still stands at the old cabin shop on Mound Street Road; and

WHEREAS, when Carthage was chosen as Jasper County's permanent seat on March 28, 1842, a \$100 one-room building was erected on the north side of the square and served as the courthouse for twelve years until a new two-story structure was erected in the middle of the square in 1854; and

WHEREAS, during the Civil War battle known today as the Battle of Carthage, that new courthouse sustained severe damage from heavy artillery fire on the square which prompted the citizenry to construct a different edifice that was completed in 1895 at the cost of \$100,000 and placed on the National Register of Historic Places in 1973; and

WHEREAS, Jasper County enjoys the distinction of being one of the fastest-growing counties in the Show-Me State and prides itself on the success which the community of Joplin has experienced in attracting new business virtually every day; and

WHEREAS, the residents of Jasper County have a reputation of being a close-knit family, the members of which assist, support, and encourage each other especially in time of need:

NOW, THEREFORE, BE IT RESOLVED that we, the members of the Missouri Senate, Ninety-first General Assembly, join unanimously in extending hearty congratulations to the citizens of Jasper County as they commemorate one hundred sixty years of achievement and in wishing them continued growth and prosperity in the challenging years that lie ahead; and

BE IT FURTHER RESOLVED that the Secretary of the Senate be instructed to prepare a properly inscribed copy of this resolution for the One Hundred Sixtieth Anniversary celebration of Jasper County, Missouri.

Senator DePasco offered Senate Resolution No. 91, regarding James V. Spallo, Kansas City, which was adopted.

CONCURRENT RESOLUTIONS

Senator Caskey offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 8

Recognizing the Northern Cherokee Indian People of Missouri.

WHEREAS, the Northern Cherokee Indian people are descendants of the Cherokee Nation; and

WHEREAS, the Northern Cherokee settled in Missouri rather than in Indian territory; and

WHEREAS, the Northern Cherokee citizens of Missouri have represented our state in the armed services through several wars; and

WHEREAS, they are very much a part of the state's history and its future; and

WHEREAS, they have continued a form of tribal government for the past 140 years, and in 1979, wrote a constitution and by-laws creating a new and working tribal organization into the state of Missouri in 1982; and

WHEREAS, recognition by the state of Missouri confers certain benefits upon the Northern Cherokee Indian people:

NOW THEREFORE BE IT RESOLVED that the members of the Missouri Senate, Ninety-First General Assembly, First Regular Session, the House of Representatives concurring therein, hereby recognize the Northern Cherokee Indians; and

BE IT FURTHER RESOLVED that this resolution be sent to the Governor for his approval or rejection pursuant to the Missouri Constitution.

Senators Loudon and Gross offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 9

WHEREAS, the federal Environmental Protection Agency's reformulated gasoline program uses methyl tertiary butyl ether or MTBE as a gasoline additive which makes gasoline burn more efficiently and reduces air pollution; and

WHEREAS, while MTBE is not harmful if completely combusted, contamination of water and air can occur if gasoline is allowed to evaporate or leak into the ground; and

WHEREAS, two recent spills in Missouri have resulted in ground water pollution, which the impact of is yet to be determined; and

WHEREAS, as recently as March of 2000, the federal government took steps to ban MTBE because of continuing reports that the chemical has contaminated drinking water and threatened human health; and

WHEREAS, President Clinton has announced that he wants Congress to replace the Clean Air Act provision that governs additives such as MTBE and ethanol with a renewable fuel standard for all gasoline; and

WHEREAS, as a result of the environmental and health concerns over MTBE, the states of California and New Jersey have already opted out of the EPA's reformulated gasoline program; and

WHEREAS, at a time when gasoline prices have risen, eliminating the use of more costly MTBE treated gasoline could provide Missouri consumers with more than six cents a gallon in much needed tax relief; and

WHEREAS, in the St. Louis Region, MTBE came into use in the summer of 1999, as a method of reducing the area's ozone problem and will be used until 2004 because of the governmental red tape involved in removing MTBE from the market:

NOW THEREFORE BE IT RESOLVED that the members of the Missouri Senate, Ninety First General Assembly, First Regular Session, the House of Representatives concurring therein, hereby urge the Governor to allow St. Louis to opt out of the EPA's reformulated gasoline program until a safer substitute for MTBE is found; and

BE IT FURTHER RESOLVED the Secretary of the Senate be instructed to prepare properly inscribed copies of this resolution for the Governor.

FIRST REGULAR SESSION

THIRTEENTH DAY--WEDNESDAY, JANUARY 24, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

"A word fitly spoken is like gold." (Proverbs 25:11)

Gracious God, we are so mindful how people listen closely to what we have to say; some to rejoice in what is said, others listen to criticize and disagree. Help us to prepare well for what we have to say and write, to be efficient and aware of our audience. And may we be ever mindful of the power of our words and the good and harm they can do. Bless us with the study and discipline we need to convey what is needed to be accomplished here. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

WHEREAS, the Commission has faithfully undertaken its responsibility and submitted a compensation schedule that provides for a maximum increase in compensation for the affected public officials up to the amount of 5.5%; and

WHEREAS, the percentage increase recommended by the Citizen's Commission on Compensation for Elected Officials was based upon recommendations made by the Personnel Advisory Board and the Ad Hoc Task Force on Total Compensation for all state employees for fiscal years 2001-2002 and 2002-2003; and

WHEREAS, the Citizen's Commission report makes clear that the Commission intended public officials should be treated the same as all other state employees; and

[At the close of business on each day thereafter until the opening day of the session, bills and joint resolutions received during the day shall be assigned numbers in the same manner, that is, by seniority from the total number of measures filed each day, with a limit of three bills or joint resolutions per rotation of the seniority list.]

Once filed, bills and joint resolutions shall not be changed except to correct patent typographical, clerical or drafting errors that do not involve changes of substance, nor shall substitutions be made therefor. Any bill may be withdrawn but the number shall not be reassigned once a number has been given.

[Seniority for the purposes of this rule shall be determined as follows:

- (2) In the case of equal continuous senate service, majority party members shall have seniority over minority party members;
- (3) In the case of equal continuous senate service by members of the same party, prior non-continuous senate service;
- (4) In the case of equal continuous and prior non-continuous senate service by members of the same party, prior house service;
- (5) In the case of equal continuous and equal prior non-continuous senate service and equal prior house service by members of the same party, seniority shall be determined by the caucus of that party.]

Rule 45. There shall be a senate consent calendar. The sponsor of a senate bill shall first give notice of desire to have a bill placed upon the senate consent calendar by filing in writing, with the chairman of the committee to which the bill was referred, a notice of intent one day prior to a committee hearing. The notice of intent shall set forth the nature of the legislation, the fact that it is not a controversial bill, and a request that the senate committee recommend that the bill be placed upon the consent calendar. **A bill shall not be considered as consent if it increases net expenditures of the state by more than one hundred thousand dollars, reduces net revenue of the state by more than one hundred thousand dollars or if it contains penalty provisions.** The bill will go to the senate consent calendar if, a quorum being present, it receives a unanimous affirmative vote of do pass by all members present at the senate committee to which the bill was referred, and there is thereafter a motion made and unanimously carried by affirmative vote of all those present that it be placed upon the consent calendar. Any bill approved by committee, for consent, may be reported to the consent calendar at any time the Senate goes to the order of business of committee reports. When a bill is placed upon the consent calendar, third reading shall not commence until the fifth legislative day. During this four-day period, starting with the first day the bill appears on the consent calendar in the Journal any member or the Committee on Rules, Joint Rules and Resolutions may, by filing written objection, direct that it be returned to the senate committee from which it was reported for action in accordance with the rules of the senate. A bill placed upon the senate consent calendar shall not be subject to amendment, except for committee amendments, and after the committee amendments have been disposed of shall be third read as though it had previously been perfected. If returned to committee, the chairman may report the bill to the senate at the next time that order of business is taken up, without further action of the committee. No senate bill may be placed on the consent calendar after March fifteenth and no house bill shall be placed on the consent calendar after April fifteenth.

Rule 48. No bills, other than appropriation bills, shall be introduced in the senate after [March first] **February 15** of any regular session unless consented to by a majority of the elected members of the senate, and no bills other than appropriation bills shall be introduced in the senate after the sixtieth legislative day of any regular session, unless consented to by a majority of the elected members of the house and senate, or the governor requests consideration of the proposed legislation by a special message. (Constitution, Art. III, Sec. 25.)".

Journal of the Senate

FIRST REGULAR SESSION

SIXTEENTH DAY--TUESDAY, JANUARY 30, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

Heavenly Father, You have given us the gift of conscience. You expect us to make judgments about what's right and wrong. Even so, in dealing with others You want us to put the best construction on what they say and do. You alone know the motives of our hearts and You alone will give the final verdict. So give us the courage and guidance to seek and do Your will and treat each other with respect. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Joint Committee appointed to wait upon His Excellency, Governor Bob Holden, escorted the Governor to the dais where he delivered the State of the State Address to the Joint Assembly:

GOVERNOR HOLDEN'S REMARKS

STATE OF THE STATE ADDRESS--

HOUSE CHAMBERS

1/30/01

Mr. President, Mr. Speaker, Mr. President Pro Tem, Distinguished State Officials, Mr. Chief Justice, Members of the State Supreme Court, Members of the 91st General Assembly, and Citizens of the State of Missouri:

One of our greatest blessings is sharing the important moments in our life with those we love most.

I am truly blessed today.

Before I begin, I want to introduce my parents, Lee and Wanda Holden.

Mom and Dad, thanks for coming, and would you please stand.

Next I want you to meet two young men who are keeping things pretty lively in the Governor's Mansion these days--our sons, Robert and John D.

Boys, will you please stand.

Finally, saving the best for last, the First Lady in my life--the only lady from the moment I first saw her--and now the First Lady of the State of Missouri--Lori Hauser Holden.

Growing up near the small, rural town of Birch Tree, Missouri, taught me a great deal.

First of all, I learned how to make a dollar go a long way because we didn't have a lot of them.

But there were so many other riches that can't be measured in monetary terms.

A rich community spirit that demonstrated how much could be accomplished by working together toward a common goal.

A rich acceptance of people based on their self worth--not on how much they owned or how they looked.

A rich belief that solid values like honesty, loyalty, and responsibility, combined with lots of hard work, could lead to success.

And a deep understanding of the positive effect that love, support, and encouragement can have on a single life.

Along with my home, one of the first places I found that love, support, and encouragement was a little one-room schoolhouse, which housed all eight grades.

I don't remember a lot of details about my first day of school except my mother shedding a few tears as I started that mile and a half walk from our farm to the school.

But that mile and a half walk began a journey that would bring me to the door of the Governor's office.

Of course, at the time, I didn't realize how important that first walk was.

I was only six.

But on the other side of that school door...as the only boy in a class of three...I discovered a whole world of opportunities existed outside of Birch Tree.

The first teacher who inspired me to explore that world was a woman by the name of Bertha Smotherman.

I wanted Mrs. Smotherman to be with me today, but she recently suffered the loss of her husband.

I wanted her to be here so I could tell her that I've never forgotten what she wrote on my first grade report card.

I saved that grade card all these years, and today I'd like to read you what it says.

Mrs. Smotherman wrote: "I'll never forget how good Bobby has been all school year."

That compliment meant a lot to me, and I want her to know even if she is at home that I'll never forget how good she was to me all school year--how she touched my life.

Mrs. Smotherman, I'm still trying to be good--a good person, a good husband, a good father, and now a good Governor.

And you had a lot to do with those goals being important.

I want to thank you and all the rest of my teachers for the knowledge you shared and for making me believe that I had the power to take that knowledge and make a difference.

I'll never forget you.

Nor will I forget this day.

For this is a defining moment in our state's history.

Much like my first day of school, we are beginning this session with a clean slate.

A new Governor...a new legislature...a new century of opportunities.

And I believe we as public servants can explore those opportunities to benefit all Missourians if we follow the basic lessons I learned in Birch Tree so many years ago.

As those responsible for the state budget, we must provide Missourians with the assurance that their tax dollars go a long way.

We must set the example of working together--never allowing partisanship to stand in the way of the best interests of those we serve.

Our actions must champion the acceptance of people based on their self worth--regardless of status, appearance, or belief.

And our achievements must be guided by the recognition that some of our citizens have never experienced the advantages you and I received.

They have not experienced success, even though they hold solid values and work hard.

They have not known the love, support, and encouragement of family and community.

Yet a successful Missouri for all will only spring from opportunity for all.

BUDGET

Sometimes, opportunities come in the form of challenges.

This year presents one of those challenges in keeping Missouri's financial house in order.

Fortunately, we begin that task from a position of strength.

The leadership of the past eight years has created an environment conducive to economic growth.

Missouri remains a low tax, efficiently run state, according to all prominent national rankings.

According to recently published data from the United States Census Bureau, Missouri ranks 40th in the nation in per capita tax burden and 47th in state government expenditures per capita.

We are a fiscally conservative state and will remain so during my administration.

We're only one of a few states that have maintained our Triple-A bond rating from the major rating agencies.

And the national publication, *Governing Magazine*, considers Missouri one of the best managed states in the nation.

More Missourians are working than ever before.

Personal income is up.

And Missourians are enjoying unprecedented tax relief.

Thanks to bipartisan tax cuts, our citizens are paying \$753 million less in taxes than in 1992.

Since Fiscal Year 1999, our state's general revenue spending has grown slower than personal income, and since Fiscal Year 1995, we have refunded \$973 million to Missouri taxpayers.

However, even though our economic foundation is strong, we're now experiencing the same sluggishness that is being seen at the national level.

Our state revenue collections have slowed down, due to a decrease in capital gains from the stock market and slowing sales tax growth.

Last year's revenues came in \$116 million lower than projected.

At the same time, our costs to the state have risen higher than anyone anticipated.

The costs of federal mandates are more than estimated.

Health care costs for seniors and those with disabilities continue to rise.

And tax credits, which received widespread bipartisan support, are taking a much bigger bite out of our budget than anyone believed they would.

In Fiscal Year 1996, these tax credits cost the state almost \$50 million.

By Fiscal Year 2002, their price tag will reach over \$200 million.

In total, the combination of tax cuts, tax credits, and tax refunds have returned almost \$2 billion to Missouri taxpayers during the past six years.

It is only proper that Missouri taxpayers should share in our recent economic prosperity.

However, the combination of a slowing economy, deep tax cuts, and unexpected mandatory expenses have put stress on our state budget.

Therefore, the first priority of this legislative session must be to tighten our belts and deliver a balanced budget.

However, I will not allow this difficult situation to weaken our investment in the top priority of my administration--education.

Granted, this is not the budget situation any of us wanted.

It's certainly not the financial circumstances I wanted as I begin my administration.

Nor is it the financial situation many of you on both sides of the aisle foresaw when you were voting for tax cuts and tax credits during those years when revenue was growing more than expected.

But it is the economic reality we've been given.

Factors beyond our control have changed the economic climate dramatically.

Now our challenge is making that climate work for us in building a better Missouri.

I look forward to working with Senator Russell and Representative Green and their budget committee members in meeting this challenge.

I am committed to protecting the key priorities of most Missourians--education and prescription drug services.

But we must take the fiscally responsible actions necessary to keep our state's economy strong during the tough times, so we can continue to prosper in the good times.

EDUCATION

The best way we can invest in Missouri's future is by opening new educational opportunities for our children.

Education must be our number one priority.

The cornerstones of my plan to improve education include: adequate resources, quality teachers, parental involvement, accountability, technology, and a safe environment where students are ready to learn.

That task begins by ensuring that Missouri teachers and students have the resources they need to improve performance.

That's why my top priority this year will be to fully fund the school foundation formula.

Effective classroom resources are not enough by themselves.

We must have teachers like my first grade teacher Mrs. Smotherman, who can provide the best quality of instruction because they are the chief

determining factor in improving student performance.

We must encourage our teachers to strengthen their skills.

We can accomplish that goal through the National Board Certification program.

To receive this certification, teachers go through a rigorous one-year evaluation and examination period.

During this time, they must demonstrate a mastery of advanced national standards in their subject area.

Typically, this process involves more than 200 hours of after school work from teachers, detailing and reflecting upon their teaching approach and strategies.

We are honored to have one of those teachers here with us today from West Boulevard Elementary in Columbia--Sunita Bajpai.

And if you doubt how difficult it is to achieve this status, just talk to Sunita.

Less than one out of two teachers successfully complete the program the first time.

It's a great pleasure to introduce you to one of our excellent Missouri National Board Certified teachers.

We only have 44 teachers like her in the entire state.

Sunita, would you please stand.

I want to see one thousand teachers like Sunita in our state over the next four years of my administration.

Following the lead of the 15 states that have been at the forefront in training National Board Certified teachers, I am recommending a \$5,000 annual salary supplement for any Missouri teacher who completes this program.

And those who agree to help mentor other Missouri teachers for certification would receive a ten percent salary supplement.

I want to thank Senator Bentley and Senator Stoll for agreeing to sponsor this legislation.

I was just with Senator Bentley and other legislators last week at Pleasant View Middle School in Springfield on this very issue.

Both Senator Bentley and Senator Stoll have a longtime commitment to education, and I am confident they will be excellent spokespeople for the merits of this program.

In addition to adequate resources and good teachers, another key component in effective learning is parental involvement.

Unfortunately, many parents don't have a full and accurate picture of how well their child is doing at school as compared to children at other public schools.

I want to give Missouri parents that picture by establishing school accountability report cards.

This action will go one step beyond our present requirement for school district report cards, so parents will know exactly what is happening at their child's individual school.

Parents will receive information on classroom conditions, the professional qualifications of their child's teachers, class size, graduation and dropout rates, school safety, and a report on how their tax dollars are being spent.

They will be able to find even more extensive information at the school and on the Internet.

By holding schools accountable in this way, parents, taxpayers, and school patrons can compare the evaluation of their school with other schools in the area.

School report cards will also be useful to other schools--pointing out successful school strategies and practices that other schools can adopt to improve their institution.

We also are finding that technology is the tool that has the capacity to reform the classroom.

It changes the way teachers teach and students learn.

Students are more motivated and their achievement scores are higher.

Over the past few years, we've seen a greatly strengthened commitment to technology in our schools.

Today the ratio of students per computer in our schools is less than five to one.

The rate of students per Internet-connected computer is less than ten to one.

Our administration wants to continue to integrate these new technological tools into our children's learning so they will have the job skills to succeed in this new century economy.

So we are recommending an increased investment in technology grants from the primary grades to the postsecondary level.

The last critical element to student achievement is setting a classroom environment where students are respectful and involved in their work.

Many other states across the nation have found that establishing some form of character education in the school curriculum helps in establishing that environment.

In many respects, character education initiatives formally recognize and support what good parents and good teachers have always tried to instill in students--responsibility, respect, trustworthiness, fairness, caring, and citizenship.

Our state is well positioned to expand character education across Missouri.

This year, I want to provide funding so more schools can establish character education programs.

And over the next four years, I'd like to see that every Missouri school that wishes to integrate character education into the school environment has access to the teacher training and resource materials they need.

HEALTHY FAMILIES

In spite of this being a tight budget year, we have a rare opportunity to take steps to ensure a healthy future for Missouri families in the 21st century.

I want to see that our state's portion of the national tobacco settlement is used for vital health care needs contained in the Healthy Families Initiative that I will outline today.

A major portion of this initiative is focused on helping our senior citizens cope with skyrocketing prescription costs.

As you know, Medicare doesn't cover prescription drugs, and many of our seniors certainly cannot afford to buy separate insurance.

Many of these elderly people have multiple prescriptions for expensive medicines--medicines that cost them thousands of dollars a month--costs that sometimes exceed their income.

So what do they do about the situation?

For far too many, the answer is they go without their medicines--an act that often leads to even more serious illness and heavy medical bills.

Like so many of you, I have heard heartbreaking stories from Missouri seniors living on limited incomes who are forced to choose between the medicines they need and their ability to buy food or pay their rent or utility bills.

What a terrible dilemma.

And all I can say is: shame on us...shame on us for allowing that to go on in this state and this country.

Prescription drug relief for seniors is one of my highest priorities this year.

And I want...in fact...I need for it to be one of yours, too.

Under my plan, no eligible senior will pay more than \$1,500 a person or \$3,000 a family for their prescription drugs in any one year.

In addition, those seniors and those disabled Missourians on Medicare or Supplemental Security Income who do not already have insurance coverage for prescriptions will be able to buy their medicines at reduced rates--up to 20 percent less than they are currently paying.

Because of these actions, we will be able to phase out our present prescription drug tax credit, which has failed to help those seniors who most need our assistance because of catastrophic health care costs.

The second piece of my Healthy Families Initiative tackles our problem of providing health care access to all Missourians.

Over 90 percent of our counties are designated as shortage areas for health care professionals.

At the same time, many of our medical facilities that treat uninsured Missourians are facing budget cuts that may force them to reduce medical services to the poor.

I want to see us maintain a health care system that provides continued health care access for low-income adults, guarantees hospital care for the uninsured, increases medical education payments to teaching hospitals so they can afford the cost of training doctors and nurses, and establishes grants for rural and hospital-based clinics so they can continue to help the uninsured.

I believe we need recruitment incentives so primary care doctors and dentists will take their practices into the underserved areas of our state.

We will also establish a telehealth center at the University of Missouri-Columbia School of Medicine so patients and providers can interact with health care professionals miles away and medical training is available to doctors in isolated areas of the state.

Another part of our tobacco settlement money must be spent on programs that prevent smoking.

While we already provide resources to prevent tobacco use, our state still ranks fifth in the nation in the percentage of adults who do smoke.

Almost a third of our high school students smoke.

With those statistics, it probably doesn't surprise you that our state ranks well above average in diseases related to smoking--heart disease, cancer, and other diseases.

Obviously, our efforts are not working.

While we are investing a great deal of money in anti-smoking activities, those activities are scattered.

We must bring coordination to this process and focus our existing resources as well as bolster what we are currently doing with a substantial new investment in preventing our citizens from taking up this addictive and harmful habit.

I want to invest in a comprehensive tobacco prevention plan that has proven effective in other states to help communities develop their own anti-smoking education programs and to fund a statewide media campaign against smoking.

One area that holds exciting promise for both the future health of Missouri citizens and our economy is the life sciences.

Missouri has the opportunity to be a leader in this field.

We must seize this opportunity by investing in research at our public institutions.

From what I have already seen across our state, I am convinced the life sciences will lead us to tremendous advancements in the prevention and treatment of diseases such as cancer, arthritis, diabetes, and AIDS.

A perfect example of what I am talking about is one of our guests today, Dr. Michael DeBaun, who serves as Assistant Professor of Pediatrics at Washington University and a clinical director at St. Louis Children's Hospital.

Dr. DeBaun has been conducting clinical research on sickle cell disease and the children who suffer strokes that go undetected as a result of this disease.

He's studying how to best identify children who have suffered one of these strokes and what kind of educational rehabilitation can be done to help them catch up at school.

The research Dr. DeBaun is doing will make a difference in the lives of countless children in the future.

Dr. DeBaun, would you please stand so we can recognize you for the fine work you are doing.

Another way we are improving the quality of life for our citizens through the life sciences is by targeting environmental pollution and improving the way we treat our drinking water and our industrial and hazardous waste.

I also want Missouri's life science corridor to extend throughout the fields and pastures of our state.

Agriculture has always been the foundation of our state's economy, and it can strengthen our future as well.

If we take the opportunity, our corn and beans can provide us with immunity from disease, and fuel our vehicles, and nourish our families.

Milk from our dairy industry can do more than just build strong bones.

It can become a new source for insulin and other new medical treatments.

I want to link the scientist with the farmer through our life science advancements and our Department of Agriculture.

Life science possibilities can provide new opportunities for our next generation of family farmers.

Our potential for new foods and new uses for food products are endless through life science research.

At the same time, the life sciences will strengthen our economy through the high wage jobs and industry growth they create.

Studies have demonstrated that the return on our investment in life science health research is more than 15 to 1.

I believe investing a part of the tobacco settlement in the life sciences is critical to ensuring Missouri's ability to compete in a new century and guarantee continued economic growth for all Missourians.

The last portion of our tobacco settlement money should be spent on giving more Missouri children a healthy start in life.

Lori and I know the value of our state's nationally recognized early childhood program, Parents As Teachers, because we've been participants with our two boys, Robert and John D.

Through Parents As Teachers and other community-based initiatives, families learn the value of good preventive health care choices for their children and can guide them toward healthy lifestyle choices and success in school.

Unfortunately, at the present time, much of our early childhood efforts are not reaching those who need it most--our at-risk children in low-income families.

They deserve a healthy start in life.

I want to commit part of our tobacco settlement money to reach out to these at-risk families so they can have the same opportunities for success as so many other Missouri families.

Next week I will issue an executive order establishing the Healthy Families Trust Fund.

All tobacco settlement money will be placed in this fund so we can keep track of how much is being used for each part of our initiative--prescription drug costs, health care access, anti-smoking programs, life sciences, and early childhood care.

In this way, we will have the accountability in place to assure the taxpayers that all the tobacco money is going to the areas I have identified.

HEALTHY WOMEN

Another segment of our population that deserves the opportunity for better health care is Missouri women.

While most of our state HMO health care plans allow complete access to family doctors and pediatricians, women have problems getting direct access to their OB/GYNs.

Our current law only requires health care plans to cover one annual visit without a referral.

I want to see us change the law so women can have access to their OB/GYNs whenever it is medically appropriate for important procedures.

I also believe it's critical that Missouri women are notified annually about covered services such as Pap tests and mammograms and that they have access to the best available cancer screenings such as the ThinPrep Pap test, which reduces the need for repeat testing.

According to the American Cancer Society, 3,700 Missouri women will be diagnosed with breast cancer this year, and 800 of them will die.

Three hundred women will test positive for cervical cancer.

Eighty percent of the women who die from cervical cancer had not had a pap test in at least five years.

Too many of us know too many women...wives, daughters, sisters, mothers, and grandmothers...who have suffered, or even worse, lost their lives because of these deadly diseases.

Early detection is the best way to ensure survival.

By requiring annual notification of cancer screenings that are covered by health care plans and calling for expanded access, we can greatly improve the quality of life and health of women in the state of Missouri.

One more reminder or one extra doctor's visit can make a difference. Let's make that difference.

TRANSPORTATION

When we talk about missed opportunities in Missouri, the prime example is transportation.

Transportation is an issue that touches every citizen in our state--young or old, urban or rural, Democrat or Republican.

And it holds such rich potential for Missouri.

We have a prime geographic location, the two largest inland waterways, two international airports, the second largest rail center in the nation, and we hold a key position in the I-35 corridor that links us to important trade partners.

We have the potential to be a significant international hub in the 21st century.

Yet sadly, transportation has been neglected for too long--to the detriment of the personal safety of our citizens and our economy.

One-third of our bridges need improvement or replacement.

Five thousand miles of our roads and 5,700 intersections need safety improvements.

Our transit system is in jeopardy.

And we are unable to furnish the assistance we need for rail, air, or ports.

All of these deficiencies are impeding our ability to compete in this 21st century economy.

In the case of our highway system, what is even more staggering is the human cost.

One person is injured every 6.7 minutes on our roadways and bridges.

Three Missourians are killed every day.

And each of them is much more than a number.

They are a neighbor...a family member...a friend.

We will miss them and always wonder why they were taken from us so senselessly.

One of those Missourians was a 17-year-old girl--Kristin Nicole Hendrickson.

Just three months before graduation, through no fault of her own, she never got to walk up the aisle to get her diploma.

Her prom dress hung in the closet unworn.

She never read her college acceptance letter.

Because Kristin died on a two-lane stretch of Highway 61 between Canton and LaGrange when a pickup truck tried to pass another car and hit her head-on.

So many people have lost their lives on that stretch of road that it has become known as "Death Alley."

But because of Kristin's classmates at Canton High School, something tragic also became something inspiring.

These young people started a grassroots movement called SMART--Students of Missouri Assisting Rural Transportation.

They wrote letters, gathered petition signatures, lobbied legislators, and even testified at a Missouri Highway and Transportation Commission meeting to make a safer four-lane highway on this stretch of road a priority.

Because of their efforts, a project to widen this section of Highway 61 is now a high priority of our Transportation Department.

But the young people of SMART have not stopped there.

They are trying to organize SMART chapters all over Missouri, working to improve our state transportation system for all Missourians.

I just visited with these wonderful young people last week in my office, and they told me about their friend Kristin.

Please join me in welcoming these unbelievably committed young people and Kristin's parents, Bill and Julie Hendrickson, who are showing all of us how to get things done.

So the real question is: if this group of young people can get done what needs to get done, why can't we?

We have put off fixing our transportation system for too long because the cure was expensive...because we couldn't agree on what to do...and because no one was willing to take the lead on a solution.

I am prepared to take that lead.

It is time for us to stop looking backward and placing blame for prior mistakes and inaction.

The longer we wait, the worse our situation becomes.

It's time we come together as one Missouri.

Let us come together this session to develop a transportation system that will keep our citizens safe and spur economic growth in the 21st century.

And we must insist on accountability.

We have to give the public the confidence that every dollar they're spending on transportation is spent wisely and efficiently, and we're getting the full benefit of those dollars.

Don't let anyone tell us we can't get this done.

This is our time.

This is our responsibility.

We must act.

.08 BLOOD ALCOHOL CONTENT

Poor road conditions are not the only reason we lose lives on our highways in Missouri.

Drunk drivers are another major cause.

Almost two out of every five Americans will be involved in an alcohol-related crash at some point in their lives.

Right now, in Missouri, the blood alcohol content for being arrested as a drunk driver is .10, even though all the evidence shows that a driver is substantially impaired at the .08 level.

An analysis of the first five states that lowered the blood alcohol limit to .08 revealed significant decreases in fatal crashes related to alcohol in four out of the five.

The tremendous toll in human life and suffering our higher blood alcohol content law is causing should be more than sufficient reason to lower the legal limit.

And federal authorities are also sending us a signal of how important they feel this issue is.

We are losing federal incentive money for our highways by not adopting .08.

We would be receiving an additional three million dollars every year now.

If we don't pass a .08 law by October 1, 2003, we will be paying a sanction in the neighborhood of \$8 million--a penalty that increases to \$32 million in 2007 if we still haven't passed the bill.

Let's make it happen this year.

DOMESTIC VIOLENCE

Another safety issue that demands our attention this legislative session is the silent sickness of our society known as domestic violence.

For too long, much of this abuse has been kept hushed up behind locked doors because women are afraid to report it.

Some feel some misguided sense of shame as if they have asked to be battered.

Or they simply don't know where to turn.

Only one in seven battered women call the police for help.

And the effect of this abuse is even more devastating on the children in these families.

They often suffer extreme mental stress and grow up to become abusers themselves.

Even though the late Mel Carnahan was the first governor to propose significant funding to fight domestic violence, we still have much left to do.

Only 46 of our state's 114 counties have domestic violence centers and support for battered women and their children.

What is truly shocking about the situation is the number of women and children turned away.

In 1999, nearly 5,000 Missouri women and children who sought shelter from abuse were told there was just no room.

That is why, even in this difficult budget period, I strongly recommend an additional \$3 million for local domestic violence shelters next fiscal year.

In many places where shelter assistance is available, the support is excellent.

One good example is Rose Brooks Center in Kansas City.

The current shelter only houses 50 people.

But when the new Center opens in August, 75 women and children will have a safe haven from abuse.

Rose Brooks clearly illustrates what can be accomplished when we work together.

Public funding at the state and federal level combined with private funding sources made this new facility possible.

Please help me recognize the Executive Director of Rose Brooks, Susan Miller.

I will be appointing a special task force on domestic violence in the next few weeks to conduct the first ever inventory of our state's funding and resources to deal with domestic violence.

This task force will also develop a strategic action plan for how we can coordinate and integrate our approach to domestic violence, based on needs and priorities.

Because of her extensive experience in this field, I have asked Susan if she would agree to serve as the first member of this task force when it is appointed, and she has accepted.

MORE EFFICIENT GOVERNMENT

If we are to fully realize the opportunities that this new century will bring, we must continue to make our state government more efficient and effective.

Business continually finds new and better ways to serve their customers, and I want Missouri government to do the same.

We must improve the services we provide to our citizens.

To do this, we need to set the priorities we want to achieve, measure our success in meeting those priorities, and use this information to drive decisions that will bring us greater success.

We've already seen some great examples of how this can work.

In our Department of Revenue, state employees worked on evaluating the cost of red tape in their agency and then made it a priority to cut costs.

Because of those efforts, they created simpler tax forms, promoted the electronic filing of tax returns, and now thanks to legislative approval, offer two-year automobile registration, saving our taxpayers millions of hours of time and a great deal of money.

I want to use this model to look at the total cost of state government.

With our tight budget, I want to make certain every tax dollar is working for the taxpayers.

I want to find ways we can take the hassle out of dealing with state agencies.

I want to see us combine overlapping programs, employ cutting edge technology, and do more with less.

CONCLUSION

Before I joined you this morning, I was with some young students from around the state, including my hometown of Birch Tree.

We weren't physically in the same place, but the wonders of modern technology brought us together for an electronic dialogue.

Because of such amazing advancements, our students in rural areas no longer have to hope the world's knowledge and experiences will come to them.

They can go out and find that knowledge and experience on-line.

So much has changed for the better since I took that first mile and a half walk to a one-room schoolhouse.

But all that progress has been possible because of one constant that will never change--the imagination and hard work of Missouri's people.

Their dreams and labors have brought us far in the last century.

And they can take us even farther in this new century if we work together, as a Governor and a legislature, to do what is right for them with our actions...if we give them the opportunity to fulfill their potential.

Over the last few years, the wise decisions made by many of you here today have provided those opportunities.

Now, in this time of challenge, we must make tough choices to ensure Missouri continues to head in the right direction.

Those choices carry no partisan label.

They must only pass one simple test.

Are these actions right for Missouri?

What is right for Missouri this year means improving our schools...helping our seniors deal with the soaring cost of prescription drugs...making certain our fiscal house is in order.

We must work together to meet those commitments.

I realize that's not as easy as it sounds.

After all, I've sat where you're sitting--right there in seat 76 for six years.

But I will tell you one thing that helped me during those hours of spirited debate.

Whenever the discussion would become heated...the issue would be extremely complicated...or I would feel discouraged, there would always be a moment when I would look straight ahead at this dais.

And there, emblazoned in gold letters, I would see what you see today...what countless people that have been given this sacred trust have seen from their first day in this hallowed chamber--"Let the welfare of the people be the supreme law."

Those ten words are our guide.

They are our responsibility.

They are our vision.

They are why we are here.

In the spirit of bipartisanship and our mutual love for Missouri, let us honor them with our actions in the weeks...the months...the years to come.

Thank you.

Rule 45. There shall be a senate consent calendar. The notice of intent shall set forth the nature of the legislation, the fact that it is not a controversial bill, and a request that the senate committee recommend that the bill be placed upon the consent calendar. **A bill shall not be considered as consent if it increases net expenditures of the state by more than \$100,000, reduces net revenue of the state by more than \$100,000 or if it contains penalty provisions.** The bill will go to the senate consent calendar if, a quorum being present, it receives a unanimous affirmative vote of do pass by all members present at the senate committee to which the bill was referred, and there is thereafter a motion made and unanimously carried by affirmative vote of all those present that it be placed upon the consent calendar. Any bill approved by committee, for consent, may be reported to the consent calendar at any time the Senate goes to the order of business of committee reports. When a bill is placed upon the consent calendar, third reading shall not commence until the fifth legislative day. During this four-day period, starting with the first day the bill appears on the consent calendar in the Journal any member or the Committee on Rules, Joint Rules and Resolutions may, by filing written objection, direct that it be returned to the senate committee from which it was reported for action in accordance with the rules of the senate. A bill placed upon the senate consent calendar shall not be subject to amendment, except for committee amendments, and after the committee amendments have been disposed of shall be third read as though it had previously been perfected. If returned to committee, the chairman may report the bill to the senate at the next time that order of business is taken up, without further action of the committee. No senate bill may be placed on the consent calendar after March fifteenth and no house bill shall be placed on the consent calendar after April fifteenth."

WHEREAS, Maurice Schechter came into this world in St. Louis, Missouri, on June 27, 1907, and was educated in the East St. Louis, Illinois, public school system before attending Washington University and City College of Law and Finance where he earned his law degree; and

WHEREAS, a former Missouri state representative and senator, Maurice Schechter was first elected to the Missouri House of Representatives in 1934 and served until 1940 when he left office to establish his law career in St. Louis as one of the founding partners of Russell, Schechter, Weiss, and Ens, a successful law firm where he worked from the late 1950s until he retired in the early 1980s; and

CONCURRENT RESOLUTIONS

SENATE CONCURRENT RESOLUTION NO. 14

WHEREAS, growing numbers of underinsured Missourians, an increasingly price-driven health care marketplace, and continued growth in enrollment of Medicaid beneficiaries are having critical implications for the future soundness of Missouri's health care safety net that serves a large portion of low-income and uninsured Missourians; and

WHEREAS, despite the nation's robust economy, certain populations in the state of Missouri continue to remain outside the medical and economic mainstream, having little or no access to stable health care coverage; and

WHEREAS, these populations include uninsured citizens of Missouri, low-income underinsured individuals, Medicaid beneficiaries, and patients with special health care needs who rely on safety providers for their care; and

WHEREAS, institutions and physicians in the state of Missouri that have a high level of demonstrated commitment to caring for the uninsured and underserved patients of Missouri are experiencing serious financial problems due to that commitment; and

WHEREAS, these providers in the state include ConnectCare in St. Louis, Truman Medical Centers in Kansas City and University of Missouri Health Care in Columbia, the only state-owned acute care facility serving the state's rural population, comprise Missouri's health care safety net; and

WHEREAS, the number of financially vulnerable people in the state is growing, the direct and indirect subsidies that have helped finance uncompensated care are eroding, and the rapid growth of Medicaid managed care are having significant adverse effects:

NOW, THEREFORE, BE IT RESOLVED by the Missouri Senate, Ninety-first General Assembly, First Regular Session, the House of Representatives concurring therein, hereby establish a Joint Interim Committee to study the current funding system for safety net providers and develop legislative and budgetary policy that will ensure appropriate compensation as well as preserve the long-term viability of Missouri's safety net providers in recognition of the critical contribution these health care programs have made to the welfare of Missouri's citizens.

Many of the laws we write flow from Your law in order to help guide and protect life for us in Missouri and bring safety to our people. WHEREAS, Mrs. Conley was a lifelong resident of Kansas City and a lifelong member of Redemptorist Catholic Parish; and

WHEREAS, after serving her community in various capacities, including chair of the Mother's March of Dimes from 1958 to 1966, Mrs. Conley became the first woman elected to a Jackson County office in 1966, when she won the office of County Clerk as a member of the original Committee for County Progress Team; and

WHEREAS, Mrs. Conley achieved another record which stood for many years of being the only woman reelected to County office in 1970 and she became Clerk of the new County Legislature in 1973, was Missouri County Clerk of the year in 1986, and served as national treasurer of the County Clerk's Association; and

WHEREAS, Mrs. Conley retired in 1991 after 24 years service as the longest serving County Clerk in Missouri with a distinguished record unmatched in her time; and

WHEREAS, Mrs. Conley and her husband, Jack Conley, were married for 47 years and had three outstanding children; and

WHEREAS, Mrs. Conley was a charming and gracious lady who loved Kansas City and Jackson County and was most of all a devoted wife, mother and grandmother in whose heart and love her family always came first:

NOW, THEREFORE, BE IT RESOLVED that the members of the Missouri Senate pause in their deliberations to salute the memory of a great and distinguished lady of Kansas City and Jackson County, Mrs. Bernice Conley, express their appreciation for her lifetime of good citizenship and her contributions to Kansas City, Jackson County and Missouri, and extend to her family and many friends most sincere sympathy on her death; and

BE IT FURTHER RESOLVED that the Secretary of the Senate be instructed to prepare properly inscribed copies of this resolution for the family of Mrs. Bernice Conley, for the Jackson County Legislature and for the Redemptorist Catholic Church.

CONCURRENT RESOLUTIONS

SENATE CONCURRENT RESOLUTION NO. 15

WHEREAS, the members of the Ninety-First General Assembly recognize that in recent years, voter participation has stagnated and the available pools of qualified election judges has diminished; and

WHEREAS, one idea to address these concerns is to make the general election day a national holiday; and

WHEREAS, recognizing that the sacrifice made by our men and women in the armed services to protect our democracy deserve recognition; and

WHEREAS, making the general election day a national holiday will assist in providing more election judges and other election day assistance:

NOW, THEREFORE, BE IT RESOLVED by the Missouri Senate, Ninety-first General Assembly, First Regular Session, the House of Representatives concurring therein, unanimously recommend to the United States Congress that it enact legislation making national general elections a national holiday to be observed on the first Tuesday after the first Monday in November; and

SENATE CONCURRENT RESOLUTION NO. 16

WHEREAS, the members of the Missouri Senate recognize the problems our nation's military personnel experience to exercise their right to vote; and

WHEREAS, as reports from Florida indicate, many military personnel are unable to return their ballots to local election authorities in a timely manner; and

WHEREAS, it is unconscionable that we would disenfranchise the very individuals who put their lives on the line to protect our democratic right to vote:

NOW, THEREFORE, BE IT RESOLVED that the Missouri Senate, Ninety-first General Assembly, First Regular Session, the House of Representatives concurring therein, unanimously recommend to the United States Congress that it review challenges faced by our military personnel and enact a comprehensive Military Voting Rights Act; and

SENATE RESOLUTION NO. 186

WHEREAS, the members of the Missouri Senate always welcome the opportunity to acknowledge notable achievements in the professional careers of former Show-Me State high school athletes who have subsequently attained fame on national and international fields of competition; and

WHEREAS, Kyle Davis Richardson played defensive back, punter, kicker, and receiver as a three-year starter and All-conference/All-region member of the football team at Farmington High School in Missouri's St. Francois County where he also garnered basketball and track honors; and

WHEREAS, a walk-on player at Arkansas State University his freshman year, Kyle Richardson walked off four years later with the most punts, 274, and most yards, 10,917, in school history; and

WHEREAS, playing with the Rhein Fire of the World League for the 1996 season, Kyle Richardson entered the National Football League (NFL) when he signed with Miami on September 3, 1997, and then with Seattle on November 14; and

WHEREAS, Kyle Richardson saw action in five games while on the Miami and Seattle teams during which time he established greater-than-forty-yard averages and demonstrated his propensity for dropping punts inside the 20-yard line; and

WHEREAS, joining the Baltimore Ravens squad as a free agent for the 1998 season, Kyle Richardson immediately got down to work setting seven

Ravens punting records and landing nearly one-third of his punts inside the 20, much to the consternation of opposing receivers who often opted for fair catches rather than attempt the herculean task of gaining ground from such a miserable position; and

WHEREAS, leading the NFL in 2000 for the second straight year with 35 punts inside the 20, Kyle Richardson continues to demonstrate a tremendous tenacity and the ability to scramble successfully after poor hikes and to perform wonderfully under less-than-ideal conditions in mud and rain:

NOW, THEREFORE, BE IT RESOLVED that we, the members of the Missouri Senate, Ninety-first General Assembly, join unanimously to applaud the exceptional athletic record of native Missourian Kyle Richardson and to convey to him this legislative body's tremendous pride in his accomplishments in the world of professional football together with our best wishes for continued success; and

BE IT FURTHER RESOLVED that the Secretary of the Senate be instructed to prepare a properly inscribed copy of this resolution in honor of Baltimore Ravens Kyle Davis Richardson.

Senator Kenney offered the following resolution:

SENATE RESOLUTION NO. 187

Notice of Proposed Rule Change

BE IT RESOLVED by the Senate of the Ninety-First General Assembly, First Regular Session, that Senate Rule 45 be amended to read as follows:

"Rule 45. There shall be a senate consent calendar. The sponsor of a senate bill shall first give notice of desire to have a bill placed upon the senate consent calendar by filing in writing, with the chairman of the committee to which the bill was referred, a notice of intent one day prior to a committee hearing. The notice of intent shall set forth the nature of the legislation, the fact that it is not a controversial bill, and a request that the senate committee recommend that the bill be placed upon the consent calendar. A bill shall not be considered as consent if it increases net expenditures of the state by more than \$100,000, reduces net revenue of the state by more than \$100,000 [or if it contains penalty provisions], **increases an existing civil or criminal penalty or if it creates a new civil or criminal penalty**. The bill will go to the senate consent calendar if, a quorum being present, it receives a unanimous affirmative vote of do pass by all members present at the senate committee to which the bill was referred, and there is thereafter a motion made and unanimously carried by affirmative vote of all those present that it be placed upon the consent calendar. Any bill approved by committee, for consent, may be reported to the consent calendar at any time the Senate goes to the order of business of committee reports. When a bill is placed upon the consent calendar, third reading shall not commence until the fifth legislative day. During this four-day period, starting with the first day the bill appears on the consent calendar in the Journal any member or the Committee on Rules, Joint Rules and Resolutions may, by filing written objection, direct that it be returned to the senate committee from which it was reported for action in accordance with the rules of the senate. A bill placed upon the senate consent calendar shall not be subject to amendment, except for committee amendments, and after the committee amendments have been disposed of shall be third read as though it had previously been perfected. If returned to committee, the chairman may report the bill to the senate at the next time that order of business is taken up, without further action of the committee. No senate bill may be placed on the consent calendar after March fifteenth and no house bill shall be placed on the consent calendar after April fifteenth."

COMMUNICATIONS

Senator Mathewson submitted the following:

Statement By Senator Jim Mathewson

February 13, 2001

For the past three and one-half years, I have worked to fulfill my commitment to all Missourians to bring accountability to the Missouri Department of Transportation and to bring forward a total transportation plan to meet the transportation needs of both urban and outstate Missouri citizens.

Now, it has become apparent that I will not be able to continue working through the Senate Transportation Committee to keep that good-faith commitment to the citizens of Missouri.

Therefore, effective at 10 a.m. today, February 13, I resign my appointment to the Senate Transportation Committee.

In doing so, I renew my commitment to work on the floor with members of the Senate and the House of Representatives to develop a total transportation plan that considers the needs of rural and urban Missouri, for the benefit of, and consideration by all citizens of this state.

Journal of the Senate

FIRST REGULAR SESSION

TWENTY-FIFTH DAY--WEDNESDAY, FEBRUARY 14, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

"You shall love the Lord your God with all your heart, and with all your soul, and with all your mind...You shall love your neighbor as yourself."
(Matthew 22:37, 39)

God of Love, each day we greet one another and shake one another's hands most courteously and that is the proper thing for us to do. But on this Valentine's Day let us remember to express our love to those who mean so much to us treating them as if they were lobbying us and not just loving us. May we be expressive of our love and care to those whom You have given us to love and show in small ways how our heart sings a song in their presence. And may we be neighborly to those we meet daily, especially those who want nothing from us. In Your Loving Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

A member of the state highway patrol, **county or municipal law enforcement officer** may, prior to arrest, administer a chemical test to any person suspected of operating a motor vehicle in violation of section 577.010 or 577.012. A test administered pursuant to this section shall be admissible as evidence of probable cause to arrest and as exculpatory evidence, but shall not be admissible as evidence of blood alcohol content. The provisions of section 577.020 shall not apply to a test administered prior to arrest pursuant to this section."; and

Further amend the title and enacting clause accordingly.

Senator Sims moved that the above amendment be adopted, which motion prevailed.

Senator Klarich offered **SA 3**:

SENATE AMENDMENT NO. 3

Amend Senate Committee Substitute for Senate Bill No. 36, Page 1, In the Title, Line 3, by striking the words "alcohol-related"; and

Further amend said bill, Page 9, Section 302.520, Line 28, by inserting after all of said line the following:

"302.535. 1. Any person aggrieved by a decision of the department may file a petition for trial de novo by the circuit court. The burden of proof shall be on the state to adduce the evidence. Such trial shall be conducted pursuant to the Missouri rules of civil procedure and not as an appeal of an administrative decision pursuant to chapter 536, RSMo. The petition shall be filed in the circuit court of the county where the arrest occurred. The case shall be decided by the judge sitting without a jury. The presiding judge of the circuit court may assign a [traffic judge, pursuant to section 479.500, RSMo 1994, a] circuit judge or an associate circuit judge to hear such petition.

2. The filing of a petition for trial de novo shall not result in a stay of the suspension or revocation order. But upon the filing of such petition, a restricted driving privilege for the limited purpose of driving in connection with the petitioner's business, occupation, employment, or formal program of secondary, postsecondary or higher education shall be issued by the department if the person's driving record shows no prior alcohol related enforcement contact during the immediately preceding five years. Such limited driving privilege shall terminate on the date of the disposition of the petition for trial de novo.

3. In addition to the limited driving privilege as permitted in subsection 2 of this section, the department may upon the filing of a petition for trial de novo issue a restricted driving privilege for the limited purpose of driving in connection with the petitioner's business, occupation, employment, or formal program of secondary, postsecondary or higher education. In determining whether to issue such a restrictive driving privilege, the department shall consider the number and the seriousness of prior convictions and the entire driving record of the driver.

4. Such time of restricted driving privilege pending disposition of trial de novo shall be counted toward any time of restricted driving privilege imposed pursuant to section 302.525. Nothing in this subsection shall be construed to prevent a person from maintaining his restricted driving privilege for an additional sixty days in order to meet the conditions imposed by section 302.540 for reinstating a person's driver's license."; and

Further amend said bill, Page 10, Section 302.541, Line 18, by inserting after all of said line the following:

"479.500. 1. In the twenty-first judicial circuit, a majority of the circuit judges, en banc, may establish a traffic court, which shall be a division of the circuit court, and may authorize the appointment of not more than three municipal judges who shall be known as traffic judges. The traffic judges shall be appointed by a traffic court judicial commission consisting of the presiding judge of the circuit, who shall be the chair, one circuit judge elected by the circuit judges, one associate circuit judge elected by the associate circuit judges of the circuit, and two members appointed by the county executive of St. Louis County, each of whom shall represent one of the two political parties casting the highest number of votes at the next preceding gubernatorial election. The procedures and operations of the traffic court judicial commission shall be established by circuit court rule.

2. Traffic judges may be authorized to act as commissioners to hear in the first instance nonfelony violations of state law involving motor vehicles, and such other offenses as may be provided by circuit court rule. Traffic judges may also be authorized to hear in the first instance violations of county and municipal ordinances involving motor vehicles, and other county ordinance violations, as provided by circuit court rule.

3. In the event that a county municipal court is established pursuant to section 66.010, RSMo, which takes jurisdiction of county ordinance violations the circuit court may then authorize the appointment of no more than two traffic judges authorized to hear municipal ordinance violations other than county ordinance violations, and to act as commissioner to hear in the first instance nonfelony violations of state law involving motor vehicles, and such other offenses as may be provided by rule. [These traffic court judges also may be authorized to act as commissioners to hear in the first instance petitions to review decisions of the department of revenue or the director of revenue filed pursuant to sections 302.309, 302.311, 302.535 and 302.750, RSMo.]

4. In establishing a traffic court, the circuit may be divided into such sectors as may be established by a majority of the circuit and associate circuit judges, en banc. The traffic court in each sector shall hear those cases arising within the territorial limits of the sector unless a case arising within another sector is transferred as provided by operating procedures.

5. Traffic judges shall be licensed to practice law in this state and shall serve at the pleasure of a majority of the circuit and associate circuit judges, en banc, and shall be residents of St. Louis County, and shall receive from the state as annual compensation an amount equal to one-third of the annual compensation of an associate circuit judge. Each judge shall devote approximately one-third of his working time to the performance of his duties as a traffic judge. Traffic judges shall not accept or handle cases in their practice of law which are inconsistent with their duties as a traffic judge and shall not be a judge or prosecutor for any other court. Traffic judges shall not be considered state employees and shall not be members of the state employees' or judicial retirement system or be eligible to receive any other employment benefit accorded state employees or judges.

6. A majority of the judges, en banc, shall establish operating procedures for the traffic court which shall provide for regular sessions in the evenings after 6:00 p.m. and for Saturday or other sessions as efficient operation and convenience to the public may require. Proceedings in the traffic court, except when a judge is acting as a commissioner pursuant to this section, shall be conducted as provided in supreme court rule 37. The hearing shall be before a traffic judge without jury, and the judge shall assume an affirmative duty to determine the merits of the evidence presented and the defenses of the defendant and may question parties and witnesses. No term of imprisonment or confinement may be assessed by a traffic judge. In the event a jury trial is requested, the cause shall be certified to the circuit court for trial by jury as otherwise provided by law. Clerks and computer personnel shall be assigned as needed for the efficient operation of the court.

7. In establishing operating procedure, provisions shall be made for appropriate circumstances whereby defendants may enter not guilty pleas and obtain trial dates by telephone or written communication without personal appearance, or to plead guilty and deliver by mail or electronic transfer or other approved method the specified amount of the fine and costs as otherwise provided by law, within a specified period of time.

8. Operating procedures shall be provided for electronic recording of proceedings, except that if adequate recording

equipment is not provided at county expense, then, in that event, a person aggrieved by a judgment of a traffic judge or commissioner shall have the right of a trial de novo. The procedures for perfecting the right of a trial de novo shall be the same as that provided under sections 512.180 to 512.320, RSMo, except that the provisions of subsection 2 of section 512.180, RSMo, shall not apply to such cases.

9. The circuit court shall only have the authority to appoint two commissioners with the jurisdiction provided in subsection 3 of this section.

10. All costs to establish and operate a county municipal court under section 66.010, RSMo, and this section shall be borne by such county."; and

Further amend the title and enacting clause accordingly.

Senator Klarich moved that the above amendment be adopted.

Senator Westfall raised the point of order that **SA 3** is out of order as it goes beyond the scope and title of the bill.

The point of order was referred to the President Pro Tem, who ruled it not well taken.

At the request of Senator Westfall, **SB 36**, with **SCS** (pending), was placed on the Informal Calendar.

HOUSE CONCURRENT RESOLUTION NO. 13

WHEREAS, the current federal milk marketing order pricing system does not fully account for regional differences in the costs of producing milk and only establishes a minimum price for milk; and

WHEREAS, the Southern Dairy Compact shall become effective when entered into by three of the designated states in the Compact and when the consent of Congress has been obtained; and

WHEREAS, at least three states of the required states having entered into the Southern Dairy Compact, leaving on the necessary consent of Congress to be obtained before the Compact shall become effective:

Journal of the Senate

FIRST REGULAR SESSION

TWENTY-SIXTH DAY--THURSDAY, FEBRUARY 15, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

"Wisdom consists in doing the next thing you have to do, doing it with your whole heart and finding delight in doing it." (Meister Eckart)

Precious Lord, as we race through this day may we put our whole selves into what must be done so that it doesn't need to be redone. May we go to those we love and love them with our whole heart so completely that they know we are giving our whole self to them. And may we find the delight that comes from completely being present with them in the hearing of Your word this weekend. In Your Gracious Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal of the previous day was read and approved.

Photographers from KRCG-TV and the Associated Press were given permission to take pictures in the Senate Chamber today.

CONCURRENT RESOLUTIONS

Senators Steelman, Klarich, Stoll, Wiggins, Kinder, Scott, Staples, House, Loudon, Cauthorn, Yeckel, Gibbons, Rohrbach, DePasco, Childers, Russell, Klindt, Gross, Sims and Carter offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 17

WHEREAS, on January 29, 2001, the United States District Court for the District of Columbia in the case of Sierra Club v. Browner ordered the United States Environmental Protection Agency to decide by March 12, 2001, whether the St. Louis area is in serious violation of standards for ozone air pollution; and

WHEREAS, since the court was barred from ordering the Environmental Protection Agency to find the St. Louis area in "serious" violation, the question of what the EPA will ultimately decide to do is still open; and

WHEREAS, a "serious" designation by the Environmental Protection Agency for the St. Louis area would be significant for the region because it could deter the development of new industries in the region by requiring more costly and restrictive air pollution controls on industry aimed at improving air quality as well as imposing penalties, such as the withholding of federal highway dollars; and

WHEREAS, the state of Missouri and its citizens have worked hard to improve the St. Louis area's air quality through such steps as the use of reformulated gasoline, the implementation of stricter industry controls on emissions, improvements in mass transit, a vehicle inspection program that started in April 2000 and the placement of nozzles on gas pumps to collect gas fumes; and

WHEREAS, last year, the Environmental Protection Agency agreed to give the St. Louis area until November of 2003 to meet the ozone standards and any reduction in that timeframe would be unfair to the citizens of St. Louis and the state who have worked so diligently to improve the air quality:

NOW, THEREFORE, BE IT RESOLVED that the Missouri Senate, Ninety-first General Assembly, First Regular Session, the House of Representatives concurring therein, hereby urge the United States Environmental Protection Agency to provide the St. Louis area with the time promised last year to meet the ozone standards before declaring the area is in serious violation of standards for ozone air pollution; and

BE IT FURTHER RESOLVED that the Secretary of the Senate be instructed to prepare properly inscribed copies of this resolution for President George Bush, Environmental Protection Agency Administrator Christine Todd Whitman, Governor Bob Holden and each member of the Missouri congressional delegation.

Help us be mindful of our history and the effect the actions of leaders have had on their people so we may make right decisions here in the Senate. Journal of the Senate

FIRST REGULAR SESSION

TWENTY-EIGHTH DAY--TUESDAY, FEBRUARY 20, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

"To discover God in the smallest and most ordinary things, as well as in the greatest, is to possess a rare and sublime faith." (Jean-Pierre De Caussade)

Almighty God, You know how we can become so preoccupied that we miss only the biggest of things going on around us. Help us to also be aware of small things such as small acts of kindness and courtesy, caring and joy. Help us to embrace all that is about us there for our joy and happiness to comfort and support us. Let us not be so taken with ourselves so that we have little room for others about us who need what only we may be able to provide and therefore miss our opportunity to serve you Oh God. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

SENATE AMENDMENT NO. 6

Amend Senate Committee Substitute for Senate Bill No. 36, Page 1, Section A, Line 5, by inserting after all of said line the following:

"302.130. 1. Any person at least fifteen years of age who, except for age or lack of instruction in operating a motor vehicle, would otherwise be qualified to obtain a license pursuant to sections 302.010 to 302.340 may apply for and the director shall issue a temporary instruction permit entitling the applicant, while having such permit in the applicant's immediate possession, to drive a motor vehicle of the appropriate class upon the highways for a period of twelve months, but any such person, except when operating a motorcycle or motortricycle, must be accompanied by a licensed operator for the type of motor vehicle being operated who is actually occupying a seat beside the driver for the purpose of giving instruction in driving the motor vehicle, who is at least twenty-one years of age, and in the case of any driver under sixteen years of age, the licensed operator occupying the seat beside the driver shall be a grandparent, parent [or], guardian, **a driver training instructor holding a valid driver education endorsement on a teaching certificate issued by the department of elementary and secondary education or a qualified instructor of a private drivers' education program** who has a valid driver's license. Beginning January 1, 2001, an applicant for a temporary instruction permit shall successfully complete a vision test and a test of the applicant's ability to understand highway signs which regulate, warn or direct traffic and practical knowledge of the traffic laws of this state, pursuant to section 302.173. In addition, beginning January 1, 2001, no permit shall be granted pursuant to this subsection unless a parent or legal guardian gives written permission by signing the application and in so signing, state they, or their designee as set forth in subsection 2 of this section, will **either** provide a minimum of twenty hours of behind-the-wheel driving instruction, **or ensure that the applicant completes a driver training program taught by a driver training instructor holding a valid driver education endorsement on a teaching certificate issued by the department of elementary and secondary education or by a qualified instructor of a private drivers' education program.**

2. In the event the parent, grandparent or guardian of the person under sixteen years of age has a physical disability which prohibits or disqualifies said parent, grandparent or guardian from being a qualified licensed operator pursuant to this section, said parent, grandparent or guardian may designate a maximum of two individuals authorized to accompany the applicant for the purpose of giving instruction in driving the motor vehicle. An authorized designee must be a licensed operator for the type of motor vehicle being operated and have attained twenty-one years of age. At least one of the designees must occupy the seat beside the applicant while giving instruction in driving the motor vehicle. The name of the authorized designees must be provided to the department of revenue by the parent, grandparent or guardian at the time of application for the temporary instruction permit. The name of each authorized designee shall be printed on the temporary instruction permit, however, the director may delay the time at which permits are printed bearing such names until the inventories of blank permits and related forms existing on August 28, 1998, are exhausted.

3. The director, upon proper application on a form prescribed by the director, in his or her discretion, may issue a restricted instruction permit effective for a school year or more restricted period to an applicant who is enrolled in a high school driver training program taught by a driver training instructor holding a valid driver education endorsement on a teaching certificate issued by the state department of elementary and secondary education even though the applicant has not reached the age of sixteen years but has passed the age of fifteen years. Such instruction permit shall entitle the applicant, when the applicant has such permit in his or her immediate possession, to operate a motor vehicle on the highways, but only when a driver training instructor holding a valid driver education endorsement on a teaching certificate issued by the state department of elementary and secondary education is occupying a seat beside the driver.

4. The director, in his or her discretion, may issue a temporary driver's permit to an applicant who is otherwise qualified for a license permitting the applicant to operate a motor vehicle while the director is completing the director's investigation and determination of all facts relative to such applicant's rights to receive a license. Such permit must be

in the applicant's immediate possession while operating a motor vehicle, and it shall be invalid when the applicant's license has been issued or for good cause has been refused.

5. A person at least fifteen years of age may operate a motor vehicle as part of a driver training program taught by a driver training instructor holding a valid driver education endorsement on a teaching certificate issued by the department of elementary and secondary education or a qualified instructor of a private drivers' education program.

6. The director may adopt rules and regulations necessary to carry out the provisions of this section.

302.178. 1. Beginning January 1, 2001, any person between the ages of sixteen and eighteen years who is qualified to obtain a license pursuant to sections 302.010 to 302.340, may apply for, and the director shall issue, an intermediate driver's license entitling the applicant, while having such license in his or her possession, to operate a motor vehicle of the appropriate class upon the highways of this state in conjunction with the requirements of this section. An intermediate driver's license shall be readily distinguishable from a license issued to those over the age of eighteen. All applicants for an intermediate driver's license shall:

- (1) Successfully complete the examination required by section 302.173;
- (2) Pay the fee required by subsection 3 of this section;
- (3) Have had a temporary instruction permit issued pursuant to subsection 1 of section 302.130 for at least a six-month period or a valid license from another state; and
- (4) Have a parent, grandparent or legal guardian sign the application stating that the applicant has **either completed a driver training program taught by a driver training instructor holding a valid driver education endorsement on a teaching certificate issued by the department of elementary and secondary education, or by a qualified instructor of a private drivers' education program, or** at least twenty hours of supervised driving experience under a temporary instruction permit issued pursuant to subsection 1 of section 302.130, or, if the applicant is an emancipated minor, the person over twenty-one years of age who supervised such driving. For purposes of this section, the term "emancipated minor" means a person who is at least sixteen years of age, but less than eighteen years of age, who:

 - (b) Has been declared emancipated by a court of competent jurisdiction;
 - (c) Enters active duty in the armed forces;
 - (d) Has written consent to the emancipation from the custodial parent or legal guardian; or

- (6) Have no nonalcoholic traffic convictions for which points are assessed pursuant to section 302.302, within the preceding six months.

2. An intermediate driver's license grants the licensee the same privileges to operate that classification of motor vehicle as a license issued pursuant to section 302.177, except that no person shall operate a motor vehicle on the highways of this state under such an intermediate driver's license between the hours of 1:00 a.m. and 5:00 a.m. unless accompanied by a person described in subsection 1 of section 302.130; except the licensee may operate a motor vehicle without being accompanied if the travel is to or from a school or educational program or activity, a regular place of employment or in emergency situations as defined by the director by regulation. Each intermediate driver's license shall

be restricted by requiring that the driver and all passengers in the licensee's vehicle wear safety belts at all times. This safety belt restriction shall not apply to a person operating a motorcycle.

3. Notwithstanding the provisions of section 302.177 to the contrary, the fee for an intermediate driver's license shall be five dollars and such license shall be valid for a period of two years.

4. Any intermediate driver's licensee accumulating six or more points in a twelve-month period may be required to participate in and successfully complete a driver-improvement program approved by the director of the department of public safety. The driver-improvement program ordered by the director of revenue shall not be used in lieu of point assessment.

5. (1) An intermediate driver's licensee who has, for the preceding twelve-month period, had no alcohol-related enforcement contacts, as defined in section 302.525 and no traffic convictions for which points are assessed, upon reaching the age of eighteen years may apply for and receive without further examination, other than a vision test as prescribed by section 302.173, a license issued pursuant to this chapter granting full driving privileges. Such person shall pay the required fee for such license as prescribed in section 302.177.

(2) The director of revenue shall deny an application for a full driver's license until the person has had no traffic convictions for which points are assessed for a period of twelve months prior to the date of application for license or until the person is eligible to apply for a six-year driver's license as provided for in section 302.177, provided the applicant is otherwise eligible for full driving privileges. An intermediate driver's license shall expire when the licensee is eligible and receives a full driver's license as prescribed in subdivision (1) of this section.

6. No person upon reaching the age of eighteen years whose intermediate driver's license and driving privilege is denied, suspended, canceled or revoked in this state or any other state, for any reason may apply for a full driver's license until such license or driving privilege is fully reinstated. Any such person whose intermediate driver's license has been revoked pursuant to the provisions of sections 302.010 to 302.540 shall, upon receipt of reinstatement of the revocation from the director, pass the complete driver examination, apply for a new license, and pay the proper fee before again operating a motor vehicle upon the highways of this state.

7. A person shall be exempt from the intermediate licensing requirements if the person has reached the age of eighteen years and meets all other licensing requirements.

8. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2000, shall be invalid and void."; and

Further amend the title and enacting clause accordingly.

Senator Gross moved that the above amendment be adopted, which motion prevailed.

"302.540. 1. No person who has had a license to operate a motor vehicle suspended or revoked under the provisions of sections 302.500 to 302.540 shall have that license reinstated until such person has participated in and successfully completed a substance abuse traffic offender program defined in section 302.010, except the department may waive such requirement upon completion of a comparable program or upon good cause shown or the court may waive such requirement upon good cause shown. The court in making this determination shall consider the person's driving record,

Assignment recommendations, based upon the needs assessment as described in subdivision (21) of section 302.010, shall be delivered in writing to the person with written notice that the person is entitled to have such assignment recommendations reviewed by the court if the person objects to the recommendations. The motion shall name the person or entity making the needs assessment as the respondent and a copy of the motion shall be served upon the respondent in any manner allowed by law. The program shall qualify as a substance abuse traffic offender program. - (2) **Participation in a twelve-step program acceptable to the court or the director;**

HOUSE CONCURRENT RESOLUTION NO. 16

WHEREAS, on January 29, 2001, the United States District Court for the District of Columbia in the case of Sierra Club v. Browner ordered the United States Environmental Protection Agency to decide by March 12, 2001, whether the St. Louis area is in serious violation of standards for ozone air pollution; and

WHEREAS, since the court was barred from ordering the Environmental Protection Agency to find the St. Louis area in "serious" violation, the question of what the EPA will ultimately decide to do is still open; and

WHEREAS, a "serious" designation by the Environmental Protection Agency for the St. Louis area would be significant for the region because it could deter the development of new industries in the region by requiring more costly and restrictive air pollution controls on industry aimed at improving air quality as well as imposing penalties, such as the withholding of federal highway dollars and; and

WHEREAS, the state of Missouri and its citizens have worked hard to improve the St. Louis area's air quality though such steps as the use of reformulated gasoline, the implementation of stricter industry controls on emissions, improvements in mass transit, a vehicle inspection program that started in April 2000 and the placement of nozzles on gas pumps to collect gas fumes; and

WHEREAS, last year, the Environmental Protection Agency agreed to give the St. Louis area until November of 2003 to meet the ozone standards and any reduction in that time frame would be unfair to the citizens of St. Louis and the state who have worked so diligently to improve the air quality:

NOW, THEREFORE, BE IT RESOLVED that the members of the House of Representatives of the Ninety-first General Assembly, First Regular Session, the Senate concurring therein, hereby urge the United States Environmental Protection Agency to provide the St. Louis area with the time promised last year to meet the ozone standards before making its determination as to whether the area is in serious violation of standards for ozone air pollution; and

BE IT FURTHER RESOLVED that the Chief Clerk of the Missouri House of Representatives be instructed to prepare properly inscribed copies of this resolution for President George Bush, EPA Administrator Christine Todd Whitman, Governor Bob Holden and each member of the Missouri congressional delegation.

In which the concurrence of the Senate is respectfully requested.

The proportionate share of money generated under other federal or state categorical aid programs shall be directed to charter schools serving such students eligible for that aid.

(2) A charter school district shall provide the special services provided pursuant to section 162.705, RSMo, and may provide the special services pursuant to a contract with a school district or any provider of such services.

SENATE AMENDMENT NO. 2

Amend Senate Bill No. 97, Page 1, Section A, Line 2 of said page, by inserting after all of said line the following:

"160.405. 1. A person, group or organization seeking to establish a charter school shall submit the proposed charter, as provided in this section, to a sponsor. **The proposed charter shall specify a proposed starting date which shall be no earlier than eleven months following the date the proposed charter is submitted.** If the sponsor is not a school board, the applicant shall give a copy of its application to the school board of the district in which the charter school is to be located **and the state board of education, [when] within five business days of the date** the application is filed with the proposed sponsor. The school board may file objections with the proposed sponsor, and, if a charter is granted, the school board may file objections with the state board of education. The charter shall include a mission statement for the charter school, a description of the charter school's organizational structure and bylaws of the governing body, which will be responsible for the policy and operational decisions of the charter school, a financial plan for the first three years of operation of the charter school including provisions for annual audits, a description of the charter school's policy for securing personnel services, its personnel policies, personnel qualifications, and professional development plan, a description of the grades or ages of students being served, the school's calendar of operation, which shall include at least the equivalent of a full school term as defined in section 160.011, and an outline of criteria specified in this section designed to measure the effectiveness of the school. The charter shall also state:

(1) The educational goals and objectives to be achieved by the charter school;

(2) A description of the charter school's educational program and curriculum;

(3) The term of the charter, which shall be not less than five years, nor greater than ten years and shall be renewable;

(4) A description of the charter school's pupil performance standards, which must meet the requirements of subdivision (6) of subsection 5 of this section. The charter school program must be designed to enable each pupil to achieve such standards; and

(5) A description of the governance and operation of the charter school, including the nature and extent of parental, professional educator, and community involvement in the governance and operation of the charter school.

2. Proposed charters shall be subject to the following requirements:

(1) **A charter application shall be provided to a proposed sponsor no later than eleven months prior to the proposed starting date for the charter school to begin operation. Within five business days of receipt of the application, the proposed sponsor shall forward a copy of the charter application to the state board of education and to the school board of the district if the proposed sponsor is not a school board;**

(2) A charter may be approved when the sponsor determines that the requirements of this section are met and determines that the applicant is sufficiently qualified to operate a charter school. The sponsor's decision **of approval or denial** shall be made within [sixty] **ninety** days of the filing of the proposed charter;

~~[(2)]~~ (3) If the charter is denied, the proposed sponsor shall notify the applicant in writing as to the reasons for its denial **and forward a copy to the state board of education within five business days following the denial;**

~~[(3)]~~ (4) If a proposed charter is denied by a sponsor, the proposed charter may be submitted to the state board of education, along with the sponsor's written reasons for its denial. If the state board determines that the applicant meets the requirements of this section and that granting a charter to the applicant would be likely to provide educational benefit to the children of the district, the state board may grant a charter and act as sponsor of the charter school. **The state board shall review the proposed charter and make a determination of whether to deny or grant the proposed charter within sixty days of receipt of the proposed charter and shall notify the applicant in writing as to the reasons for its denial, if applicable; [and]**

~~[(4)]~~ (5) The sponsor of a charter school shall give priority to charter school applicants that propose a school oriented to high-risk students and to the reentry of dropouts into the school system. If a sponsor grants three or more charters, at least one-third of the charters granted by the sponsor shall be to schools that actively recruit dropouts or high-risk students as their student body and address the needs of dropouts or high-risk students through their proposed mission, curriculum, teaching methods, and services. For purposes of this subsection, a "high-risk" student is one who is at least one year behind in satisfactory completion of course work or obtaining credits for graduation, pregnant or a parent, homeless or has been homeless sometime within the preceding six months, has limited English proficiency, has been suspended from school three or more times, **is eligible for free or reduced price school lunch**, or has been referred by the school district for enrollment in an alternative program. "Dropout" shall be defined through the guidelines of the school core data report. The provisions of this subsection do not apply to charters sponsored by the state board of education.

3. If a charter is approved by a sponsor, it shall be submitted to the state board of education which may, within [forty-five] **sixty** days, disapprove the granting of the charter. The state board of education may disapprove a charter only on grounds that the application fails to meet the requirements of sections 160.400 to 160.420.

4. Any disapproval of a charter pursuant to subsection 3 of this section shall be subject to judicial review pursuant to chapter 536, RSMo.

5. A charter school shall, as provided in its charter:

(1) Be nonsectarian in its programs, admission policies, employment practices, and all other operations;

(2) Comply with laws and regulations of the state relating to health, safety, and minimum educational standards;

(4) Be financially accountable, use practices consistent with the Missouri financial accounting manual, provide for an annual audit by a certified public accountant, **publish audit reports and annual financial reports as provided pursuant to chapter 165, RSMo, provided that the annual financial report may be published via the Internet on the secretary of state's website in lieu of other publishing requirements**, and provide liability insurance to indemnify the school, its board, staff and teachers against tort claims. For the purposes of securing such insurance, a charter school shall be eligible for the Missouri public entity risk management fund pursuant to section 537.700, RSMo. A charter school that incurs debt must include a repayment plan in its financial plan;

(5) Provide a comprehensive program of instruction for at least one grade or age group from kindergarten through grade twelve, which may include early childhood education if funding for such programs is established by statute, as specified in its charter;

(6) Design a method to measure pupil progress toward the pupil academic standards adopted by the state board of education pursuant to section 160.514, collect baseline data during at least the first three years for determining how the charter school is performing and to the extent applicable, [participate in] **employ** the statewide system of assessments, comprised of the essential skills tests and the nationally standardized norm-referenced achievement tests, as designated by the state board pursuant to section 160.518, complete and distribute an annual report card as prescribed in section 160.522, **which shall also include a statement that background checks have been completed on the charter school's board members**, report to its sponsor, the local school district, and the state board of education as to its teaching methods and any educational innovations and the results thereof, and provide data required for the study of charter schools pursuant to subsection 3 of section 160.410. No charter school will be considered in the Missouri school improvement program review of the district in which it is located for the resource or process standards of the program. Nothing in this paragraph shall be construed as permitting a charter school to be held to lower performance standards than other public schools within a district; however, the charter of a charter school may permit students to meet performance standards on a different time frame as specified in its charter;

(7) Assure that the needs of special education children are met in compliance with all applicable federal and state laws and regulations;

(8) Provide, in a timely fashion, all information necessary to confirm on-going compliance with all provisions of the charter and sections 160.400 to 160.420.

6. The charter of a charter school may be amended at the request of the governing body of the charter school and on the approval of the sponsor. The sponsor and the governing board and staff of the charter school shall jointly review the school's performance, management and operations at least once every two years.

7. (1) A sponsor may revoke a charter at any time if the charter school commits a serious breach of one or more provisions of its charter or on any of the following grounds: failure to meet academic performance standards as set forth in its charter, failure to meet generally accepted standards of fiscal management, **failure to provide information necessary to confirm compliance with all provisions of the charter and sections 160.400 to 160.420 within forty-five days following receipt of written notice requesting such information** or violation of law.

(2) The sponsor may place the charter school on probationary status to allow the implementation of a remedial plan, after which, if such plan is unsuccessful, the charter may be revoked. **The sponsor may require the remedial plan to provide for a change in methodology or leadership, or both.**

(3) At least sixty days before acting to revoke a charter, the sponsor shall notify the board of directors of the charter school of the proposed action in writing. The notice shall state the grounds for the proposed action. The school's board of directors may request in writing a hearing before the sponsor within two weeks of receiving the notice.

(4) The sponsor of a charter school shall establish procedures to conduct administrative hearings upon determination by the sponsor that grounds exist to revoke a charter. Final decisions of a sponsor from hearings conducted pursuant to

this subsection are subject to judicial review pursuant to chapter 536, RSMo.

(5) A termination shall be effective only at the conclusion of the school year, unless the sponsor determines that continued operation of the school presents a clear and immediate threat to the health and safety of the children.

8. A sponsor shall take all reasonable steps necessary to confirm each charter school sponsored by such sponsor is in material compliance and remains in material compliance with all material provisions of the charter and sections 160.400 to 160.420.

9. A school district may enter into a lease with a charter school for physical facilities. [A charter school may not be located on the property of a school district unless the district governing board agrees.]

[9.] 10. A governing board or a school district employee who has control over personnel actions shall not take unlawful reprisal against another employee at the school district because the employee is directly or indirectly involved in an application to establish a charter school. A governing board or a school district employee shall not take unlawful reprisal against an educational program of the school or the school district because an application to establish a charter school proposes the conversion of all or a portion of the educational program to a charter school. As used in this subsection, "unlawful reprisal" means an action that is taken by a governing board or a school district employee as a direct result of a lawful application to establish a charter school and that is adverse to another employee or an educational program.

11. Charter school board members shall be subject to the same liability for acts while in office as if they were regularly and duly elected members of school boards in any other public school district in this state. The board of directors of a charter school may participate, to the same extent as a school board, in the Missouri public entity risk management fund in the manner provided pursuant to sections 557.700 to 557.755, RSMo."; and

Further amend said bill, Page 2, Section 160.560, Line 45 by inserting after said line the following:

"Section 1. No sponsor shall grant a charter pursuant to sections 160.400 to 160.420 without ensuring that a criminal background check and child abuse registry check are conducted for all members of the board of directors of the charter schools or the incorporators of the charter school if initial directors are not named in the articles of incorporation, nor shall a sponsor renew a charter without ensuring a criminal background check and child abuse registry check are conducted for each member of the board of directors of the charter school.";

And further amend the title and enacting clause accordingly.

Senator House moved that the above amendment be adopted, which motion prevailed.

Senator Carter offered **SA 3**:

Journal of the Senate

FIRST REGULAR SESSION

THIRTY-THIRD DAY--WEDNESDAY, FEBRUARY 28, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

"The best prayers are often more groans than words." (John Bunyan)

God of Wondrous Compassion, today many observe Ash Wednesday and are called to look at their lives in critical and humbling ways. May that be true with us as we pray to You this day aware of our shortcomings and need of Your mercy. Keep us close to Your heart that even our groans are heard and provide us with hope and guidance as we walk through this dark day of ashes towards Your promise to be with You always. Amen.

The Pledge of Allegiance to the Flag was recited.

Journal of the Senate

FIRST REGULAR SESSION

THIRTY-FOURTH DAY--THURSDAY, MARCH 1, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

"Saying "Yes" to God's gift of love and life primarily and above all else means choosing love as a life principle." (John Powell)

God of love, as we complete this day and journey back to those we love, we are so thankful for teaching us the meaning of loving imperfect people as ourselves so that we may learn to overlook the flaws of those whom You have given us to love and who love us. Help us make love our "life principle" and express it in the varied and many relationships we have and in Your presence this weekend make it known unto You. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

NOW, THEREFORE, BE IT RESOLVED by the Missouri Senate, Ninety-first General Assembly, First Regular Session, that the State of Missouri should support H.R. 1003 and H.R. 5327 and similar resolutions thereafter which aim to prevent the unfair denial of compensation to persons with vaccine-related injuries; and

CONCURRENT RESOLUTIONS

Senator DePasco offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 23

WHEREAS, the current crisis in the domestic steel industry which began in 1997 has led fourteen steel companies to file for bankruptcy, and now led to the bankruptcy of GS Industries and the announced closure of GST Steel in Kansas City which will cause job losses at GST and for vendors around the state resulting in hardship in those communities across the state of Missouri; and

WHEREAS, this crisis has been generated by surges in United States imports of steel, both from countries whose currencies have depreciated and from steel producing countries that are no longer able to export steel to the countries in economic crisis; and

WHEREAS, foreign government trade restrictions and private restraints of trade distort international trade and investment patterns and result in burdens on United States commerce, including absorption of a disproportionate share of diverted steel trade, which ultimately have a detrimental effect on this state's economy; and

WHEREAS, there is a well-recognized need for improvements in the enforcement of United States trade laws to provide an effective response to these situations:

NOW THEREFORE BE IT RESOLVED that the members of the Missouri Senate, Ninety-First General Assembly, First Regular Session, the House of Representatives concurring therein, hereby requests the President of the United States to commence immediate action to determine the entry into the customs territory of the United States of all steel products that are the product of or manufactured in Australia, China, South Africa, Ukraine, Kazakhstan, Indonesia, India, Japan, Russia, South Korea, Mexico or Brazil to determine whether the governments of those countries are abiding by the spirit and letter of international trade agreements with respect to imports of steel products into the United States, and take all actions necessary to enforce applicable trade agreements and laws of the United States pertaining to steel imports; and

BE IT FURTHER RESOLVED that the Missouri General Assembly requests the President of the United States to immediately impose a one-year ban on imports of all steel products of or are manufactured in Australia, China, South Africa, Ukraine, Kazakhstan, Indonesia, India, Japan, Russia, South Korea, Mexico or Brazil if the President finds that the governments of those countries are not abiding by the spirit and letter of international trade agreements with respect to imports of steel products into the United States; and

BE IT FURTHER RESOLVED that the Secretary of the Missouri Senate be instructed to prepare properly inscribed copies of this resolution for the President of the United States and the members of the Missouri Congressional delegation.

Journal of the Senate

FIRST REGULAR SESSION

THIRTY-FIFTH DAY--MONDAY, MARCH 5, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

"To think too quickly of prayer as a matter of words can be a most discouraging thing." (Alan Ecclestone)

Gracious God, we sometimes are so concerned with what to say we interfere with what You might say through us. Let our days begin and end in quiet contemplation. Help us to open the channel between our spirits and Yours. Help us to be thoughtful to what You encourage us to express, not so much in words but in action and feeling. Help us serve You this week in this chamber as those called to serve. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

WHEREAS, providing public education is the primary duty of the state after paying state debts, as provided pursuant to Article III, Section 36 of the Missouri Constitution; and

WHEREAS, public school buildings in Missouri have historically been funded mainly by local funds; and

WHEREAS, the ability of school districts to pay for buildings, as measured by a district's assessed value per pupil, varies by a factor of roughly seventeen between the wealthiest and least wealthy district in this state; and

WHEREAS, the Department of Elementary and Secondary Education recently conducted a comprehensive review of school district building needs and found the existing statewide need for new construction and renovation to be in excess of four billion dollars; and

WHEREAS, public education is a labor intensive operation with roughly three-fourths of operating cost supporting salaries and benefits of staff, and most of those salaries being paid to certificated teachers; and

WHEREAS, state school operating aid has increased significantly since the passage of SB 380 in 1993; and

WHEREAS, state minimum salary requirements for teachers have not been increased to keep up with increases in the cost of living; and

WHEREAS, state cost to fully fund state school aid continues to increase significantly each year and requires funds which create hardships for other sectors of society needing access to state funds; and

WHEREAS, the adequacy and equity of funding available to public schools has again become a serious concern across the state, highlighted by the wide range of available operating funding for Missouri school districts, which ranges from \$3500 per pupil to over \$11,000 per pupil:

On any state road or highway where the speed limit is not set pursuant to a local ordinance, the highways and transportation commission may set a speed limit higher or lower than the uniform maximum speed limit provided in subsection 2 of this section, if a higher or lower speed limit is recommended by the department of transportation. The department of public safety, where it believes for safety reasons, or to expedite the flow of traffic a higher or lower speed limit is warranted, may request the department of transportation to raise or lower such speed limit, except that no speed limit shall be set higher than seventy miles per hour.

4. Notwithstanding the provisions of section 304.120 or any other provision of law to the contrary, cities, towns and villages may regulate the speed of vehicles on state roads and highways within such cities', towns' or villages' corporate limits by ordinance with the approval of the state highways and transportation commission. The commission shall send copies of any order establishing a speed limit or weight limit on roads and bridges on a county, township or road district road in the county to the chief engineer of the state department of transportation, the superintendent of the state highway patrol and to any township or road district maintaining roads in the county. After the roads have been properly marked by signs indicating the speed limits and weight limits set by the county commission, the speed limits and weight limits shall be of the same effect as the speed limits provided for in subsection [1] 2 of this section and shall be enforced by the state highway patrol and the county sheriff as if such speed limits and weight limits were established by state law.

6. All road signs indicating speed limits or weight limits shall be uniform in size, shape, lettering and coloring and shall conform to standards established by the department of transportation.

7. The provisions of this section shall not be construed to alter any speed limit set below fifty-five miles per hour by any ordinance of any county, city, town or village of the state adopted before March 13, 1996.

8. The speed limits established pursuant to this section shall not apply to the operation of any emergency vehicle as defined in section 304.022.

9. A violation of the provisions of this section shall not be construed to relieve the parties in any civil action on any claim or counterclaim from the burden of proving negligence or contributory negligence as the proximate cause of any accident or as the defense to a negligence action.

10. Any person violating the provisions of this section is guilty of a class C misdemeanor, unless such person was exceeding the posted speed limit by twenty miles per hour or more then it is a class B misdemeanor.

11. As used in this section, the word "truck" means any vehicle, machine, tractor, trailer or semitrailer, or any combination thereof, propelled or drawn by mechanical power and designed for or used in the transportation of property upon the highways. SENATE SUBSTITUTE AMENDMENT NO. 1 FOR

SENATE AMENDMENT NO. 1

Amend Senate Committee Substitute for Senate Bills Nos. 52 and 91, Page 10, Section 304.001, Line 76, by inserting after all of said line the following:

"304.010. 1. As used in this section, the following terms mean:

(1) "Expressway", a divided highway of at least ten miles in length with four or more lanes which is not part of the federal interstate system of highways which has crossovers or accesses from streets, roads or other highways at the same grade level as such divided highway;

(2) "Freeway", a limited access divided highway of at least ten miles in length with four or more lanes which is not part of the federal interstate system of highways which does not have any crossovers or accesses from streets, roads or other highways at the same grade level as such divided highway within such ten miles of divided highway;

(3) "Rural interstate", that part of the federal interstate highway system that is not located in an urban area;

(4) "Urbanized area", an area of fifty thousand population at a density at or greater than one thousand persons per square mile.

2. Except as otherwise provided in this section, the uniform maximum speed limits are and no vehicle shall be operated in excess of the speed limits established pursuant to this section:

(1) Upon the rural interstates and freeways of this state, seventy miles per hour, **except that no truck registered for a gross weight of more than thirty-six thousand pounds shall be operated in excess of sixty-five miles per hour upon the rural interstates and freeways of this state;**

(2) Upon the rural expressways of this state, sixty-five miles per hour, **except that no truck registered for a gross weight of more than thirty-six thousand pounds shall be operated in excess of sixty miles per hour upon the rural expressways of this state;**

(3) Upon the interstate highways, freeways or expressways within the urbanized areas of this state, sixty miles per hour, **except that no truck registered for a gross weight of more than thirty-six thousand pounds shall be operated in excess of fifty-five miles per hour upon the interstate highways, freeways or expressways of this state;**

(4) All other roads and highways in this state not located in an urbanized area and not provided [by] **for** in subdivisions (1) to (3) of this subsection, sixty miles per hour;

(5) All other roads provided for in subdivision (4) of this subsection shall not include any state two-lane road which is identified by letter. Such lettered roads shall not exceed fifty-five miles per hour unless set at a higher speed as established by the department of transportation, except that no speed limit shall be set higher than sixty miles per hour;

(6) For the purposes of enforcing the speed limit laws of this state, it is a rebuttable presumption that the posted speed limit is the legal speed limit.

3. On any state road or highway where the speed limit is not set pursuant to a local ordinance, the highways and transportation commission may set a speed limit higher or lower than the uniform maximum speed limit provided in subsection 2 of this section, if a higher or lower speed limit is recommended by the department of transportation. The department of public safety, where it believes for safety reasons, or to expedite the flow of traffic a higher or lower speed limit is warranted, may request the department of transportation to raise or lower such speed limit, except that no speed limit shall be set higher than seventy miles per hour.

4. Notwithstanding the provisions of section 304.120 or any other provision of law to the contrary, cities, towns and villages may regulate the speed of vehicles on state roads and highways within such cities', towns' or villages' corporate limits by ordinance with the approval of the state highways and transportation commission. Any reduction of speed in cities, towns or villages shall be designed to expedite the flow of traffic on such state roads and highways to the extent consistent with public safety. The commission may declare any ordinance void if it finds that such ordinance is:

(1) Not primarily designed to expedite traffic flow; and

(2) Primarily designed to produce revenue for the city, town or village which enacted such ordinance. If an ordinance is declared void, the city, town or village shall have any future proposed ordinance approved by the highways and transportation commission before such ordinance may take effect.

5. The county commission of any county of the second, third or fourth classification may set the speed limit or the weight limit or both the speed limit and the weight limit on roads or bridges on any county, township or road district road in the county and, with the approval of the state highways and transportation commission, on any state road or highway not within the limits of any incorporated city, town or village, lower than the uniform maximum speed limit as provided in subsection 2 of this section where the condition of the road or the nature of the area requires a lower speed. The commission shall send copies of any order establishing a speed limit or weight limit on roads and bridges on a county, township or road district road in the county to the chief engineer of the state department of transportation, the superintendent of the state highway patrol and to any township or road district maintaining roads in the county. After the roads have been properly marked by signs indicating the speed limits and weight limits set by the county commission, the speed limits and weight limits shall be of the same effect as the speed limits provided for in subsection [1] 2 of this section and shall be enforced by the state highway patrol and the county sheriff as if such speed limits and weight limits were established by state law.

6. All road signs indicating speed limits or weight limits shall be uniform in size, shape, lettering and coloring and shall conform to standards established by the department of transportation.

7. The provisions of this section shall not be construed to alter any speed limit set below fifty-five miles per hour by any ordinance of any county, city, town or village of the state adopted before March 13, 1996.

8. The speed limits established pursuant to this section shall not apply to the operation of any emergency vehicle as defined in section 304.022.

9. A violation of the provisions of this section shall not be construed to relieve the parties in any civil action on any claim or counterclaim from the burden of proving negligence or contributory negligence as the proximate cause of any accident or as the defense to a negligence action.

10. Any person violating the provisions of this section is guilty of a class C misdemeanor, unless such person was exceeding the posted speed limit by twenty miles per hour or more then it is a class B misdemeanor.

11. As used in this section, the word "truck" means any vehicle, machine, tractor, trailer or semitrailer, or any combination thereof, propelled or drawn by mechanical power and designed for or used in the transportation of property upon the highways. The term "truck" also includes a commercial motor vehicle as defined in section 301.010, RSMo.

12. (1) When the operation of any truck as defined in subsection 11 of this section pleads guilty or nolo contendere to or is found guilty of operating such vehicle at a speed in excess of five miles per hour over the posted limit, the operator shall be fined fifty dollars for each mile per hour in excess of five miles per hour over the posted or legal speed limit.

(2) The fine provided for in this subsection is in addition to all other fines and court costs imposed for the violation."; and

Further amend the title and enacting clause accordingly.

Senator Goode moved that the above substitute amendment be adopted.

Journal of the Senate

FIRST REGULAR SESSION

THIRTY-EIGHTH DAY--THURSDAY, MARCH 8, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

"All the ends of the earth shall remember and turn to the Lord; and all the families of the nations shall worship before him." (Psalm 22:27)

Almighty God, as we conclude this week we are mindful of the mission we have to all Your people and what we can assist with here in Missouri. Let us experience Your claiming Word on us as well as others and express that love as You would have us perform it. And we pray for Doris Mathewson as she undergoes surgery this morning - guide the hand and mind of the surgeons and those who care for her. And may Your healing touch and power bring her a fast recovery. In Your Holy Name we pray. Amen.

CONCURRENT RESOLUTIONS

SENATE CONCURRENT RESOLUTION NO. 27

WHEREAS, it is in the best interest of the State of Missouri, as an employer, to recruit and retain a high performance workforce; and

WHEREAS, the State of Missouri has established a benefits policy that encourages employees to continue in state employment with a career goal of 30 years of state service; and

WHEREAS, the State of Missouri has adopted specific benefit incentives associated with achieving this objective, which include:

- a) Creating a comprehensive benefits package that is externally competitive with the marketplace, and that is internally equitable;
- b) Implementing a benefits package that provides employees with options for meeting their individual and family needs, and yet assures that basic levels of health care coverage will be maintained;
- c) Ensuring equitable employer contributions for health care coverage for all state employees, retirees and dependents that assures high quality care in a cost-effective manner; and
- d) Allowing career state employees to maintain a reasonable standard of living at retirement; and

WHEREAS, achieving benefit equity and adequacy in the retiree health care area necessitates a subsidy which is dependent upon the length of state service rendered by former employees; and

WHEREAS, such state subsidy for retiree medical coverage would ensure that quality health care services are available to both the highest and lowest paid former employees:

NOW THEREFORE BE IT RESOLVED by the Missouri Senate, the House of Representatives concurring therein, that the State of Missouri hereby wishes to reward employees who make a career of state service through equitable retiree health care subsidies; and

BE IT FURTHER RESOLVED that, within the constraints of the available appropriations, the state contribution for medical coverage for retirees should be based upon a formula that has a direct relationship between the amount of the state subsidy and each retiree's length of service with the state, provided that any subsidy for retiree dependent coverage should be based upon a similar formula, but should not exceed the average state subsidy provided for dependents of active employees; and

BE IT FURTHER RESOLVED that former state employees who retired prior to the effective date of this policy may receive a state subsidy, depending on Medicare eligibility and available appropriations, of no less than the dollar amount subsidy resulting from the amount appropriated to the plan for calendar year 2001; and

BE IT FURTHER RESOLVED that it is recommended that the health care coverage for state retirees be based upon a service-based subsidy rate formula subject to available appropriations and is consistent with the goals that are established in the state's retirement plans.

SENATE SUBSTITUTE FOR

SENATE CONCURRENT RESOLUTION NO. 13

WHEREAS, the United States Fish and Wildlife Service has recommended that the United States Army Corps of Engineers implement the so-called "spring rise-split season" plan for operation of the Missouri River mainstem reservoir system; a plan which would result in an increase in the flow of the Missouri River in the spring, and a reduction of the flow in the summer of each year, purportedly to improve habitat for the threatened and endangered pallid sturgeon, least tern and piping plover; and

WHEREAS, additional changes under consideration by the United States Army Corps of Engineers to the Missouri River Master Manual would result in the storage of more water in the upstream reservoirs while decreasing the amount of water available downstream for designated uses, and these changes would shorten the navigation season on the Missouri River by twenty-seven days in November and put at risk Mississippi River navigation as well; and

WHEREAS, analysis of the proposed changes by the state of Missouri and the United States Army Corps of Engineers has indicated these changes will fail to improve and will potentially diminish habitat for the species in question, will increase the risk of flooding along the Missouri River, will result in a decrease in river levels in early summer and fall which will impact navigation and other designated uses on the Missouri and Mississippi Rivers; and

WHEREAS, habitat restoration along the lower Mississippi River has demonstrated great success in aiding the recovery of these species and a similar approach should be given the opportunity to succeed on the Missouri River; and

WHEREAS, these plans have the potential for severe impact on any industry which uses the Missouri River or Mississippi River to transport products and the potential increase risk of flooding in river communities and on farm land in the Missouri and lower Mississippi River basins; and

WHEREAS, these proposals do not adequately address the concerns and needs of states in the lower Missouri and Mississippi River basin, and will not realize the purported benefit of increasing habitat for endangered species; and

WHEREAS, the Missouri departments of natural resources, conservation and transportation have opposed these plans and have informed the Fish and Wildlife Service and the United States Army Corps of Engineers of their concerns regarding the potential impact on the state's river communities, lands, businesses and wildlife habitat:

NOW, THEREFORE, BE IT RESOLVED by the Missouri Senate, Ninety-first General Assembly, First Regular Session, the House of Representatives concurring therein, hereby urge the Governor to protest against any proposals that would so negatively impact beneficial uses of the lower Missouri Mississippi Rivers and would not significantly improve conditions for the species of concern; and

BE IT FURTHER RESOLVED that the members of the General Assembly urge the Department of Natural Resources, the Department of Conservation and the Department of Transportation to continue to insist that any plan involving the operations of the Missouri River improve the Missouri River for all beneficial uses and be sure any river management changes consider all based on sound science; and

BE IT FURTHER RESOLVED that the Secretary of the Senate be instructed to prepare properly inscribed copies of this resolution for the United States Fish and Wildlife Service, the United States Army Corps of Engineers, the Governor of Missouri, the Director of the Department of Natural Resources, the Director of the Department of Conservation and the Director of Transportation.

Journal of the Senate

FIRST REGULAR SESSION

THIRTY-NINTH DAY--MONDAY, MARCH 12, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

"Is the sword to keep devouring forever? Do you not know that the end will be bitter?" (2 Samuel 2:26)

Merciful God, again last week and this weekend we hear the cries of families of children killed and shot by other children. We ask Your compassion on these families that You will provide them comfort and support them during this time of sadness. We ask Your guidance that we might find ways to understand and do what is necessary to prevent such a violent and waste of human life in the future. Help us to help our children lay aside anger and hatred and seek Your strong presence. In Your Holy Name we pray. Amen.

(1) Parties seeking to introduce evidence of the failure to wear a safety belt in violation of this section must first introduce expert evidence proving that a failure to wear a safety belt contributed to the injuries claimed by plaintiff;

(2) If the evidence supports such a finding, the trier of fact may find that the plaintiff's failure to wear a safety belt in violation of this section contributed to the plaintiff's claimed injuries, and may reduce the amount of the plaintiff's recovery by an amount not to exceed one percent of the damages awarded after any reductions for comparative negligence.

5. Each driver who violates the provisions of subsection 2 or 3 of this section is guilty of an infraction for which a fine not to exceed ten dollars may be imposed. All other provisions of law and court rules to the contrary notwithstanding, no court costs shall be imposed on any person due to a violation of this section. [In no case shall points be assessed against any person, pursuant to section 302.302, RSMo, for a violation of this section.]

6. The department of public safety shall initiate and develop a program of public information to develop understanding of, and ensure compliance with, the provisions of this section. The department of public safety shall evaluate the effectiveness of this section and shall include a report of its findings in the annual evaluation report on its highway safety plan that it submits to NHTSA and FHWA pursuant to 23 U.S.C. 402.

7. If there are more persons than there are seat belts in the enclosed area of a motor vehicle, then the [driver and] passengers [are not in violation of this section] **who are unable to wear seat belts, shall sit on the rear passenger area of the motor vehicle unless the motor vehicle is designed only for a front-seated area.**"; and

Journal of the Senate

FIRST REGULAR SESSION

FORTY-FIRST DAY--WEDNESDAY, MARCH 14, 2001

The Senate met pursuant to adjournment.

Senator Singleton in the Chair.

Reverend Carl Gauck offered the following prayer:

Evelyn Underhill wrote regarding the Prayer of silence: "In it the soul feeds upon God, draws new vitality from the source of all life. The citizen who is so strengthened is worth more to the state than the one whose roots do not strike deep into eternity."

Gracious Lord, as we reach this midpoint of our week help us to spend some time in silence with You our God. Let our "roots strike deep" into You so we too may be of greater worth to this State and the people we serve. And may we gain strength for the many tasks still ahead of us. In Your Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

"160.518. 1. Consistent with the provisions contained in section 160.526, the state board of education shall develop a statewide assessment system that provides maximum flexibility for local school districts to determine the degree to which students in the public schools of the state are proficient in the knowledge, skills and competencies adopted by such board pursuant to subsection 1 of section 160.514. The statewide assessment system shall assess problem solving, analytical ability, evaluation, creativity and application ability in the different content areas and shall be performance-based to identify what students know, as well as what they are able to do, and shall enable teachers to evaluate actual academic performance. The assessment system shall neither promote nor prohibit rote memorization and shall not include existing versions of tests approved for use pursuant to the provisions of section 160.257, nor enhanced versions of such tests. The statewide assessment shall measure, where appropriate by grade level, a student's knowledge of academic subjects including, but not limited to, reading skills, writing skills, mathematics skills, world and American history, forms of government, geography and science.

2. The assessment system shall only permit the academic performance of students in each school in the state to be tracked against prior academic performance in the same school.

3. The state board of education shall suggest criteria for a school to demonstrate that its students learn the knowledge, skills and competencies at exemplary levels worthy of imitation by students in other schools in the state and nation. "Exemplary levels" shall be measured by the assessment system developed pursuant to subsection 1 of this section, or until said assessment is available, by indicators approved for such use by the state board of education. The provisions of other law to the contrary notwithstanding, the commissioner of education may, upon request of the school district, present a plan for the waiver of rules and regulations to any such school, to be known as "Outstanding Schools Waivers", consistent with the provisions of subsection 4 of this section.

4. For any school that meets the criteria established by the state board of education for three successive school years pursuant to the provisions of subsection 3 of this section, by August first following the third such school year, the commissioner of education shall present a plan to the superintendent of the school district in which such school is located for the waiver of rules and regulations to promote flexibility in the operations of the school and to enhance and encourage efficiency in the delivery of instructional services. The provisions of other law to the contrary notwithstanding, the plan presented to the superintendent shall provide a summary waiver, with no conditions, for the pupil testing requirements pursuant to section 160.257, in the school. Further, the provisions of other law to the contrary notwithstanding, the plan shall detail a means for the waiver of requirements otherwise imposed on the school related to the authority of the state board of education to classify school districts pursuant to subdivision (9) of section 161.092, RSMo, and such other rules and regulations as determined by the commissioner of education, excepting such waivers shall be confined to the school and not other schools in the district unless such other schools meet the criteria established by the state board of education consistent with subsection 3 of this section and the waivers shall not include the requirements contained in this section and section 160.514. Any waiver provided to any school as outlined in this subsection shall be void on June thirtieth of any school year in which the school fails to meet the criteria established by the state board of education consistent with subsection 3 of this section.

5. Any student who receives special educational services, as that term is defined in section 162.675, RSMo, may be allowed to take any test developed pursuant to this section at a developmentally appropriate grade level that may be different from his or her grade level if determined appropriate pursuant to this subsection. The state board of education shall develop criteria for determining developmentally appropriate grade levels for testing such students and shall require that a student whose disability does not prevent them from taking a test at grade level, as determined by the student's individualized education plan committee, shall take such test at grade level. The school district shall be required to submit to the department of elementary and secondary education, at least thirty days prior to the date of testing, proof of meeting the criteria for the grade level at which the district is seeking to have such student tested. The department may refuse to allow any such student to be tested at the level requested by the district, and may require that such student be tested at his or her grade

level. If the department takes no action on any such request by the district, then the student shall be tested at the level requested by the district."; and

(d) Bonds issued by the authority shall be payable as to principal, interest and redemption premium, if any, out of all or any part of the general funds of the authority, including rents, revenues, receipts and income derived and to be derived for the use of any facility or combination of facilities, or any part or parts of facilities, acquired, constructed, improved or extended in whole or in part from the proceeds of such bonds, including but not limited to sports facilities rentals, concessions and parking facilities, and from funds derived from any other facilities or part or parts of such facilities, owned or operated by the authority, all or any part of which rents, revenues, receipts and income the authority is authorized to pledge for the payment of said principal, interest, and redemption premium, if any, except that direct appropriations of tax revenues received by the authority pursuant to sections 67.2050 to 67.2071 or otherwise, other than appropriations for or credited to the payment of rent, shall not be pledged for the payment of such bonds. Neither the commissioners of the authority nor any person executing its bonds shall be personally liable on such bonds by reason of the issuance of such bonds. Bonds issued pursuant to sections 67.2050 to 67.2071 shall not constitute a debt, liability or obligation of the state of Missouri, or any political subdivision of the state, nor shall any such obligations be a pledge of the faith and credit of the state, but shall be payable solely from the revenues and assets held by the authority. The issuance of bonds pursuant to sections 67.2050 to 67.2071 shall not, directly, indirectly or contingently, obligate the state or any political subdivision of the state, or the authority, to levy any form of taxation for such bonds or to make any appropriation for their payment. Each obligation or bond issued pursuant to sections 67.2050 to 67.2071 shall contain on the face of the bond a statement to the effect that the authority shall not be obligated to pay the bond or the interest on the bond except from the revenues received by the authority or assets of the

authority lawfully pledged for the bond, and that neither the faith and credit nor the taxing power of the state or of any political subdivision of the state is pledged to the payment of the principal of or the interest on such obligation or bond. Bonds issued pursuant to this section may be further secured by a mortgage, deed of trust, trust agreement, pledge agreement, assignment or security agreement upon the rents, revenues, receipts and income referred to in this section or any part of such rents, revenues, receipts and income, or upon any leasehold interest or other property owned by the authority, or any part of such property, whether then owned or thereafter acquired, except that direct appropriations of tax revenues received by the authority pursuant to sections 67.2050 to 67.2071 or otherwise, other than appropriations for or credited to the payment of rent, shall not secure such bonds. The proceeds of such bonds shall be disbursed in such manner and under such restrictions as the authority may provide in the resolution authorizing the issuance of such bonds or in any such mortgage, deed of trust, trust agreement, pledge agreement or security agreement;

(e) The authority shall fix and maintain rates and rentals and make and collect charges for the use and services of its interest in the facility or facilities or any part of such facilities owned or operated by the authority which shall be sufficient, when combined with any other amounts generated and available pursuant to sections 67.2050 to 67.2071, to pay the cost of operation and maintenance of such facilities, to pay the principal of and interest on any such bonds payable from such rates, rentals and charges and to provide funds sufficient to meet all requirements of the resolution by which such bonds have been issued;

(f) The resolution authorizing the issuance of any such bonds may provide for the allocation of rents, revenues, receipts and income derived and to be derived by the authority from the use of any facility or part of such facility, and of the proceeds received pursuant to sections 67.2050 to 67.2071, into such separate accounts as shall be deemed to be advisable to assure the proper operation and maintenance of any facility or part of such facility and the prompt payment of any bonds issued to finance all or any part of the costs of such facility. Such accounts may include reserve accounts necessary for the proper operation and maintenance of any such facility or any part of such facility, and for the payment of any such bonds. Such resolution may include such other covenants and agreements by the authority as in its judgment are advisable or necessary properly to secure the payment of such bonds;

(g) The authority may issue negotiable refunding bonds for the purpose of refunding, extending or unifying the whole or any part of such bonds then outstanding, or any bonds, notes or other obligations issued by any other public agency, public body or political subdivision in connection with any facilities to be acquired, leased or subleased by the authority, which refunding bonds shall not exceed the amount necessary to refund the principal of the outstanding bonds to be refunded and any unpaid interest thereon, together with any redemption premium, amounts necessary to establish reserve and escrow funds and all costs and expenses incurred in connection with the refunding. The authority may provide for the payment of interest on such refunding bonds at a rate in excess of the bonds to be refunded;

(h) In case any of the commissioners or officers of the authority whose signatures appear on any bonds or coupons shall cease to be such commissioners or officers before the delivery of such bonds, such signatures shall, nevertheless, be valid and sufficient for all purposes, the same as if such commissioners or officers had remained in office until such delivery;

(i) The authority is hereby declared to be performing a public function and bonds of the authority are declared to be issued for an essential public and governmental purpose and, accordingly, interest on such bonds and income from such bonds shall be exempt from income taxation by the state of Missouri;

(11) To appoint such officers and employ such employees as the authority may require for the performance of its duties, and to fix and determine their qualifications, duties and compensation. The commissioners shall not receive compensation for their service but they shall be reimbursed by the authority for the actual and necessary expenses incurred in the performance of their duties; and

(12) To perform all other necessary and incidental functions, and to exercise such additional powers as shall be conferred by the general assembly or by act of congress.

2. The authority shall proceed to carry out its duties, functions and powers in accordance with sections 67.2050 to 67.2071, and the authority is vested with all necessary and appropriate powers not inconsistent with the constitution or the laws of the United States to effectuate such duties, except the power to levy taxes or assessments. In no event shall the state be liable for any deficiency or indebtedness incurred by the authority.

3. The authority shall grant or award at least fifteen percent of all contracts, employment opportunities, professional services and all other special contracts to persons who are members of a racial minority group, as defined in section 33.750, RSMo.

4. The authority and any city, county, other political subdivision or public agency obtaining funds pursuant to the provisions of this chapter shall be subject to the provisions of sections 34.073 and 34.076, RSMo.

5. In the event that the authority determines that moneys of the authority will not be sufficient for the payment of the principal of and interest on its bonds during the next state fiscal year, excluding amounts in any debt service reserve fund for those bonds, the chairman of the authority shall certify to the governor of the state of Missouri, as soon as is practicable, the amount required by the authority to enable it to pay the principal of and interest on the bonds. The governor shall submit the amount so certified to the general assembly as soon as practicable, but not later than the end of the current state fiscal year.

6. In the event of a withdrawal of moneys from a reserve fund established with respect to any issue or issues of bonds of the authority to pay principal or interest on such bonds, the chairman, as soon as practicable, shall certify to the governor the amount required to restore such reserve fund to the level required in the resolution or indenture securing the bonds. The governor shall submit the amount so certified to the general assembly as soon as practicable, but not later than the end of the current state fiscal year.

7. Subsections 5 and 6 of this section shall not apply to any bonds as to which the authority shall have determined, in the resolution authorizing the issuance of the bonds, that subsections 5 and 6 shall not apply. Whenever the authority makes such a determination, that fact shall be plainly stated on the face of the bonds and that fact shall also be reported to the governor. The authority shall obtain written approval from the governor for bonds and notes to which subsections 5 and 6 shall apply.

67.2056. The sports facilities fund shall be administered by the authority and shall be used to carry out the provisions of sections 67.2050 to 67.2071 and shall be used to pay the costs and expenses of the authority. The provisions of section 33.080, RSMo, to the contrary notwithstanding, all moneys in the fund shall not be transferred and placed to the credit of the general revenue fund at the end of each biennium. All interest and moneys earned on the fund shall be credited to the fund.

67.2065. 1. Nothing contained in sections 67.2050 to 67.2071 shall impair the powers of any county, municipality or other political subdivision to acquire, own, operate, develop or improve any facility of the type the authority is given the right and power to own, operate, develop or improve.

2. The state, any county, city, municipality or other political subdivision or public agency or instrumentality are authorized to make gifts, donations, grants and contributions of money or real or personal property to the authority, whether such money or property is derived from tax revenues or from any other source.

A recommendation to consider bills out of order shall require approval by a majority of the committee with the concurrence of two-thirds of the senate members. No floor debate shall be allowed on the motion to adopt the committee report.

The Committee shall examine bills placed on the Consent Calendar and may, by majority vote, remove any bill from the consent calendar within the time period prescribed by Rule 45, that it determines is too controversial to be treated as a consent bill.

19. The Committee on State Budget Control shall consider all bills, except regular appropriation bills, which require new appropriations or expenditures of appropriated funds in excess of \$100,000, or which reduce such funds by that amount during either of the first two years that public funds will be used to fully implement the provisions of the Act. Rule 29. 1. Senate offices and seats in the senate chamber shall be assigned by the committee on administration to the majority and minority caucuses. Each caucus shall make office and senate seat assignments on the basis of seniority as defined in this rule, unless otherwise determined within a caucus, except that Rooms 326 and 327 shall be known as the president pro tem's office and shall be occupied by the senate's president pro tem. Upon retirement from service as pro tem, that senator shall vacate the pro tem's office and shall have first choice of available vacant offices of his caucus, regardless of his seniority status. [Except for the outgoing president pro tem, who is required to vacate the designated pro tem's office, no senator shall be required to relinquish any office or seat once assigned to him.]

2. Seniority shall be determined by each caucus on the basis of length of service. Length of service means:

(a) Continuous senate service;

(b) In the case of equal continuous senate service, prior non-continuous senate service;

(c) In the case of equal continuous and prior non-continuous senate service, prior house service.

3. When two or more members of the same party have the same length of service, their respective seniority shall be determined by their party caucus.

Rule 44. Beginning on July first of each year, members and members-elect may deposit bills and joint resolutions for the next regular session with the secretary of the senate at any time. The secretary shall hold the bills and joint resolutions so deposited in the order filed. After the close of business on December first, the secretary shall assign numbers to bills and joint resolutions deposited in that office [by seniority of the member first signing the measure, with a limit of three bills or joint resolutions per rotation of the seniority list from the total number of measures] **as** deposited. All measures deposited through December first shall stand as pre-filed without further action by the member or member-elect. At the close of business on each day thereafter until the opening day of the session, bills and joint resolutions received during the day shall be assigned numbers in the same manner[, that is, by seniority from the total number of measures filed each day, with a limit of three bills or joint resolutions per rotation of the seniority list].

Once filed, bills and joint resolutions shall not be changed except to correct patent typographical, clerical or drafting errors that do not involve changes of substance, nor shall substitutions be made therefor. Any bill may be withdrawn but the number shall not be reassigned once a number has been given.

[Seniority for the purposes of this rule shall be determined as follows:

- (1) Continuous senate service;
- (2) In the case of equal continuous senate service, majority party members shall have seniority over minority party members;
- (3) In the case of equal continuous senate service by members of the same party, prior non-continuous senate service;
- (4) In the case of equal continuous and prior non-continuous senate service by members of the same party, prior house service;
- (5) In the case of equal continuous and equal prior non-continuous senate service and equal prior house service by members of the same party, seniority shall be determined by the caucus of that party.]

Rule 47. Each bill or joint resolution shall, before being finally acted upon by any committee, be submitted to the committee on legislative research for preparation of a fiscal note examining the cost of the proposed legislation to the state for the first two years that public funds will be used to fully implement the provisions of the Act, whether or not the proposed legislation will establish a program or agency that will duplicate an existing program or agency, whether or not there is a federal mandate for the program or agency, whether or not the proposed program or agency will have significant direct fiscal impact upon any political subdivision of the state, or whether or not any new physical facilities will be required.

The fiscal note for a bill shall accompany the bill throughout its course of passage, and may from time to time be revised to reflect changes made in the bill prior to its presentation to the governor for his approval.

In addition, prior to a bill or joint resolution being acted upon by a committee, the sponsor, chairman of the committee to which the bill is assigned, and the president pro tem shall receive an analysis which shall state whether the bill or joint resolution creates, increases or decreases the following:

- (1) The authority to promulgate administrative rules or to adjudicate disputes;**
- (2) An entitlement to a government service or benefit;**
- (3) New responsibilities or obligations on private organizations or individuals;**
- (4) The accountability of an agency to the individuals it impacts;**
- (5) The responsibilities, costs or powers of an existing agency;**
- (6) State or local taxes or fees;**
- (7) Any required payment of a program's cost (implementation and/or operation) by a beneficiary thereof;**
- (8) Government interference (regulatory, statutory or constitutional) with any present lawful activity;**
- (9) Legal rights and obligations of family members; and**
- (10) Family participation in, and private alternatives to, any state sponsored program."**

Dear Lord, as we prepare to take our Spring break help us to remember You alone can truly refresh us and renew our hearts, minds and souls. Help us to be open vessels to receive Your blessings that we may bless others about us. And help us to use this time away for re-creation and rest in You and spending time with those You have given us to love. In Your Holy Name we pray. Amen.

[6. Beginning with the 1996-97 school year, the general assembly shall make an annual appropriation to the excellence in education fund established in section 160.268, RSMo, for the purpose of fulfilling the minimum salary requirements for public school teachers in those districts meeting the qualifications established in subsection 7 of this section. The appropriation shall be sufficient to ensure that all qualifying districts are able to comply with the minimum salary requirements of this section. The department of elementary and secondary education shall determine, prior to each school year, those districts which shall be eligible to receive funds in this subsection during the school year. A qualifying district shall be eligible to receive funds appropriated in this subsection only during the first three years following the district's qualifying for such funds.

7. To qualify to begin receiving funds in subsection 6 of this section, a school district shall meet all of the following criteria:

(1) A portion of the real property of the district shall have been removed from the tax rolls due to the impact of state or federal government action;

(2) The district shall have received no more state aid on a per pupil basis for each of the last three school years, exclusive of categorical funding, than the district received for the 1992-93 school year;

(6) The district had an enrollment of no greater than four hundred pupils for the preceding school year; and

(7) The district shall have levied an operating levy for school purposes of not less than two dollars seventy-five cents per one hundred dollars of assessed valuation for the previous year and shall continue to levy at no less than that rate.

8. For any school year in which a school district receives funds pursuant to subsections 6 and 7 of this section, such school district shall continue to expend on teacher salaries no less than the amount it expended on teacher salaries in the school year immediately prior to the school year in which it first receives such funds.

9. No school district receiving funds pursuant to subsections 6 and 7 of this section shall receive additional funds pursuant to subsection 6 of this section by virtue of the annexation of another school district to such school district during or after the school year immediately prior to the school year in which the annexing district first receives such funds; nor shall any school district annexed to a school district receiving funds pursuant to subsections 6 and 7 of this section also receive funds pursuant to subsection 6 of this section by virtue of such annexation if such annexation occurred during or after the school year immediately prior to the school year in which the annexing school district first receives such funds.]

6. Beginning with the 2002-2003 school year, for districts choosing to participate in the program receiving funds pursuant to subsection 7 of this section, the minimum salary for a full-time teacher shall be at least twenty-five thousand dollars, the minimum salary for the full-time teacher with at least five years of previous experience shall be at least thirty thousand dollars, the minimum salary for a full-time teacher with at least nineteen years of previous experience or a full-time teacher with at least a master's degree or its equivalent and at least ten years previous experience shall be at least thirty-five thousand dollars, the minimum salary for a full-time teacher with at least a master's degree or its equivalent and at least nineteen years of previous experience shall be at least forty thousand dollars, and the minimum salary for a full-time teacher with at least a master's degree or its equivalent and at least twenty-nine years of previous experience shall be at least forty-five thousand dollars.

7. Beginning with the 2002-2003 school year, the general assembly shall make an annual appropriation to the excellence in education fund established in section 160.268, RSMo, for the purpose of paying public school teacher minimum salary supplements in those districts meeting the qualifications established in subsection 8 of this section and seeking to receive payments pursuant to this subsection. If the appropriation of the general assembly is insufficient to pay the total cost of all salary supplements, the minimum salary amounts of subsection 6 of this section shall be prorated until the amount appropriated is sufficient to make the payments to all participating school districts.

8. To make application and qualify to begin receiving funds pursuant to subsection 7 of this section, a school district shall meet all of the following criteria:

(1) Levy a tax rate in the current year in incidental and teachers funds totaling no less than the operating levy for school purposes for the 2000-2001 school year after all reductions and rollbacks, excluding reductions to the district tax rate ceiling as required by article X, section 22 of the Missouri constitution;

(2) Make no increase in any voluntary tax rate rollback for operations compared to the 2000 property tax year;

(3) Make no transfer of revenue or balance from either incidental or teachers funds to either debt service or capital projects funds in excess of statutory authority;

(4) Employ all teachers in accordance with district policy with at least one teacher paid according to the district's salary schedule at less than the minimum salary as specified in subsection 6 of this section;

(5) Make no reduction in any salary amount in the district's teacher salary schedule compared to the district's 2000-2001 teacher salary schedule unless the district is financially stressed as identified by the department of elementary and secondary education;

(6) Beginning with school year 2002-2003, determine the salary of any teacher who is a new employee to a school district by placement on the district's salary schedule using all of the teacher's previous years of public school teaching experience; and

(7) Beginning with school year 2002-2003, for any school district which is not financially stressed, pay each returning teacher a salary for the regular school term which is no less than the salary paid that teacher during the previous school term on a full-time employee equivalent basis.

9. Reductions or penalties to state aid payments to school districts pursuant to subsection 7 of this section

paying minimum salary supplements to teachers shall occur under the following conditions:

(1) Annually the amount by which total supplemental assignment and extra duty salaries, not including career ladder supplements, paid teachers by a district exceed eight and one-half percent of total salaries for the regular school term plus minimum salary supplements shall be subtracted from state payments made the following year pursuant to subsection 7 of this section;

(2) The amount of end-of-year fund balance in incidental and teachers funds combined in excess of the greater of fifteen percent of expenditures in these funds or the 2000-2001 end-of-year fund balance in these funds shall be subtracted the following year from state payments paid pursuant to subsection 7 of this section and if necessary from state aid paid pursuant to section 163.031.

10. Future increases in minimum salaries established pursuant to subsection 6 of this section for teachers shall be contingent upon decreases in total state payments to all districts made pursuant to subsection 7 of this section. The second fiscal year following a fiscal year in which state cost of funding the minimum salary program pursuant to subsection 7 of this section is eighty-five percent or less of the full funding cost for the first school year of the state funding of minimum salaries for teachers pursuant to subsection 7 of this section, the value of each level of minimum salary provided in subsection 6 of this section shall be increased by one thousand dollars.

11. Expenditures related to state minimum salary revenue received by a district shall not be used to determine compliance with any other provisions of law including compliance with section 165.016, RSMo.

12. The state board of education shall issue rules and regulations as necessary for the efficient and effective implementation of this section. All such rules shall be promulgated pursuant to chapter 536, RSMo.

13. State minimum salary supplements paid pursuant to subsection 7 of this section may be funded from any increases in state revenues from taxation of riverboat gaming operations, including boarding fees and lottery proceeds, compared to the amount of these revenues appointed in fiscal year 2001 and any other funds appropriated for that purpose."; and

Further amend the title and enacting clause accordingly.

Senator Foster moved that the above amendment be adopted.

Journal of the Senate

FIRST REGULAR SESSION

FORTY-EIGHTH DAY--MONDAY, APRIL 2, 2001

The Senate met pursuant to adjournment.

Gracious God, we are thankful for Your watching our "going out and coming in." We have arrived safely to meet the challenges of diminishing time and yet much to be completed. We look at the changes and chances of this life and know that we have little control over what comes our way. But we pray those things that we can control may we have the wisdom to know what to do and say and when to do that. Bless us this week with Your presence and guide us along righteous pathways. Amen.

[(14)] **(15)** Children who have attained six years of age but have not attained nineteen years of age. For children who have attained six years of age but have not attained nineteen years of age, the division of family services shall use an income assessment methodology which provides for eligibility when family income is equal to or less than equal to one hundred percent of the federal poverty level established by the Department of Health and Human Services, or its successor agency. As necessary to provide Medicaid coverage under this subdivision, the department of social services may revise the state Medicaid plan to extend coverage under 42 U.S.C. 1396a (a)(10)(A)(i)(III) to children who have attained six years of age but have not attained nineteen years of age as permitted by paragraph (2) of subsection (n) of 42 U.S.C. 1396d using a more liberal income assessment methodology as authorized by paragraph (2) of subsection (r) of 42 U.S.C. 1396a;

(c) Children who have attained six years of age but have not attained nineteen years of age with family income greater than one hundred percent of the federal poverty guideline for the applicable family size. Coverage under this subdivision shall be subject to the receipt of notification by the director of the department of social services and the revisor of statutes of approval from the secretary of the U.S. Department of Health and Human Services of applications for waivers of federal requirements necessary to promulgate regulations to implement this subdivision. The director of the department of social services shall apply for such waivers. The regulations may provide for a basic primary and preventive health care services package, not to include all medical services covered by section 208.152, and may also establish co-payment, coinsurance, deductible, or premium requirements for medical assistance under this subdivision. Eligibility for medical assistance under this subdivision shall be available only to those infants and children who do not have or have not been eligible for employer-subsidized health care insurance coverage for the six months prior to application for medical assistance. Children are eligible for employer-subsidized coverage through either parent, including the noncustodial parent. The division of family services may establish a resource eligibility standard in assessing eligibility for persons under this subdivision. The division of medical services shall define the amount and scope of benefits which are available to individuals under this subdivision in accordance with the requirement of federal law and regulations. Coverage under this subdivision shall be subject to appropriation to provide services approved under the provisions of this subdivision;

[(16)] (17) The division of family services shall not establish a resource eligibility standard in assessing eligibility for persons under subdivision (12), (13) or (14) of this subsection. The division of medical services shall define the amount and scope of benefits which are available to individuals eligible under each of the subdivisions (12), (13), and (14) of this subsection, in accordance with the requirements of federal law and regulations promulgated thereunder except that the scope of benefits shall include case management services;

[(18)] (19) A child born to a woman eligible for and receiving medical assistance under this section on the date of the child's birth shall be deemed to have applied for medical assistance and to have been found eligible for such assistance under such plan on the date of such birth and to remain eligible for such assistance for a period of time determined in accordance with applicable federal and state law and regulations so long as the child is a member of the woman's household and either the woman remains eligible for such assistance or for children born on or after January 1, 1991, the woman would remain eligible for such assistance if she were still pregnant. Upon notification of such child's birth, the division of family services shall assign a medical assistance eligibility identification number to the child so that claims may be submitted and paid under such child's identification number;

[(19)] (20) Pregnant women and children eligible for medical assistance pursuant to subdivision (12), (13) or (14) of this subsection shall not as a condition of eligibility for medical assistance benefits be required to apply for aid to families with dependent children. The division of family services shall utilize an application for eligibility for such persons which eliminates information requirements other than those necessary to apply for medical assistance. The division shall provide such application forms to applicants whose preliminary income information indicates that they are ineligible for aid to families with dependent children. Applicants for medical assistance benefits under subdivision (12), (13) or (14) shall be informed of the aid to families with dependent children program and that they are entitled to apply for such benefits. Any forms utilized by the division of family services for assessing eligibility under this chapter shall be as simple as practicable;

[(20)] (21) Subject to appropriations necessary to recruit and train such staff, the division of family services shall provide one or more full-time, permanent case workers to process applications for medical assistance at the site of a health care provider, if the health care provider requests the placement of such case workers and reimburses the division for the expenses including but not limited to salaries, benefits, travel, training, telephone, supplies, and equipment, of such case workers. The division may provide a health care provider with a part-time or temporary case worker at the site of a health care provider if the health care provider requests the placement of such a case worker and reimburses the division for the expenses, including but not limited to the salary, benefits, travel, training, telephone, supplies, and equipment, of such a case worker. The division may seek to employ such case workers who are otherwise qualified for such positions and who are current or former welfare recipients. The division may consider training such current or former welfare recipients as case workers for this program;

[(21)] (22) Pregnant women who are eligible for, have applied for and have received medical assistance under subdivision (2), (10), (11) or (12) of this subsection shall continue to be considered eligible for all pregnancy-related and postpartum medical assistance provided under section 208.152 until the end of the sixty-day period beginning on the last day of their pregnancy;

[(22)] (23) Case management services for pregnant women and young children at risk shall be a covered service. To the greatest extent possible, and in compliance with federal law and regulations, the department of health shall provide case management services to pregnant women by contract or agreement with the department of social services through local health departments organized under the provisions of chapter 192, RSMo, or chapter 205, RSMo, or a city health department operated under a city charter or a combined city-county health department or other department of health designees. To the greatest extent possible the department of social services and the department of health shall mutually coordinate all services for pregnant women and children with the crippled children's program, the prevention of mental retardation program and the prenatal care program administered by the department of health. The department of social

services shall by regulation establish the methodology for reimbursement for case management services provided by the department of health. For purposes of this section, the term "case management" shall mean those activities of local public health personnel to identify prospective Medicaid-eligible high-risk mothers and enroll them in the state's Medicaid program, refer them to local physicians or local health departments who provide prenatal care under physician protocol and who participate in the Medicaid program for prenatal care and to ensure that said high-risk mothers receive support from all private and public programs for which they are eligible and shall not include involvement in any Medicaid prepaid, case-managed programs;

[(23)] (24) By January 1, 1988, the department of social services and the department of health shall study all significant aspects of presumptive eligibility for pregnant women and submit a joint report on the subject, including projected costs and the time needed for implementation, to the general assembly. The department of social services, at the direction of the general assembly, may implement presumptive eligibility by regulation promulgated pursuant to chapter 207, RSMo;

[(24)] (25) All recipients who would be eligible for aid to families with dependent children benefits except for the requirements of paragraph (d) of subdivision (1) of section 208.150;

[(25)] (26) All persons who would be determined to be eligible for old age assistance benefits, permanent and total disability benefits, or aid to the blind benefits, under the eligibility standards in effect December 31, 1973, or those supplemental security income recipients who would be determined eligible for general relief benefits under the eligibility standards in effect December 31, 1973, except income; or less restrictive standards as established by rule of the division of family services. If federal law or regulation authorizes the division of family services to, by rule, exclude the income or resources of a parent or parents of a person under the age of eighteen and such exclusion of income or resources can be limited to such parent or parents, then notwithstanding the provisions of section 208.010:

(a) The division may by rule exclude such income or resources in determining such person's eligibility for permanent and total disability benefits; and

(b) Eligibility standards for permanent and total disability benefits shall not be limited by age;

[(26)] (27) Within thirty days of the effective date of an initial appropriation authorizing medical assistance on behalf of "medically needy" individuals for whom federal reimbursement is available under 42 U.S.C. 1396a (a)(10)(c), the department of social services shall submit an amendment to the Medicaid state plan to provide medical assistance on behalf of, at a minimum, an individual described in subclause (I) or (II) of clause 42 U.S.C. 1396a (a)(10)(C)(ii).

2. Rules and regulations to implement this section shall be promulgated in accordance with section 431.064, RSMo, and chapter 536, RSMo. [No rule or portion of a rule promulgated under the authority of this chapter shall become effective unless it has been promulgated pursuant to the provisions of section 536.024, RSMo.]

3. After December 31, 1973, and before April 1, 1990, any family eligible for assistance pursuant to 42 U.S.C. 601 et seq., as amended, in at least three of the last six months immediately preceding the month in which such family became ineligible for such assistance because of increased income from employment shall, while a member of such family is employed, remain eligible for medical assistance for four calendar months following the month in which such family would otherwise be determined to be ineligible for such assistance because of income and resource limitation. After April 1, 1990, any family receiving aid pursuant to 42 U.S.C. 601 et seq., as amended, in at least three of the six months immediately preceding the month in which such family becomes ineligible for such aid, because of hours of employment or income from employment of the caretaker relative, shall remain eligible for medical assistance for six calendar months following the month of such ineligibility as long as such family includes a child as provided in 42 U.S.C. 1396r-6. Each family which has received such medical assistance during the entire six-month period described in this section and which meets reporting requirements and income tests established by the division and continues to include a child as provided in 42 U.S.C. 1396r-6 shall receive medical assistance without fee for an additional six months. The division of medical services may provide by rule the scope of medical assistance coverage to be granted to such families.

who, for the month of August, 1972, was eligible for or was receiving aid or assistance pursuant to the provisions of Titles I, X, XIV, or Part A of Title IV of such act and who, for such month, was entitled to monthly insurance benefits under Title II of such act, shall be deemed to be eligible for such aid or assistance for such month thereafter prior to October, 1974, if such individual would have been eligible for such aid or assistance for such month had the increase in monthly insurance benefits under Title II of such act resulting from enactment of Public Law 92-336 amendments to the federal Social Security Act (42 U.S.C. 301 et seq.), as amended, not been applicable to such individual.

5. When any individual has been determined to be eligible for medical assistance, such medical assistance will be made available to him for care and services furnished in or after the third month before the month in which he made application for such assistance if such individual was, or upon application would have been, eligible for such assistance at the time such care and services were furnished; provided, further, that such medical expenses remain unpaid.

Journal of the Senate

FIRST REGULAR SESSION

FORTY-NINTH DAY--TUESDAY, APRIL 3, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

"Like good stewards of the manifold grace of God, serve one another with whatever gift each of you has received." (1 Peter 4:10)

O God, You have shown us what a servant's heart reveals to the world. We need to keep our service to You in mind today, not as a way of elevating ourselves but as a way so that it may yet give You praise of Your glory. Give us discernment and a chance to employ our gifts to assist one another here in this chamber so our burdens are lightened and our work moves more smoothly. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal of the previous day was read and approved.

Senator Kenney announced that photographers from Moberly Middle School were given permission to film in the Senate Chamber today.

The following Senators were present during the day's proceedings:

CONCURRENT RESOLUTIONS

Senator DePasco offered the following concurrent resolution:

SENATE CONCURRENT RESOLUTION NO. 28

WHEREAS, recent high fuel prices have alerted us to the need to improve our nation's policies on fuel production; and

WHEREAS, the Organization of Petroleum Exporting Countries (OPEC) has recently suggested that they will reduce crude oil production again in

an attempt to manipulate prices; and

WHEREAS, reductions in crude oil production have resulted in sharp increases in prices for natural gas, gasoline and home heating oil; and

WHEREAS, the United States has become dangerously dependent on foreign petroleum; and

WHEREAS, Missouri consumers are experiencing higher prices at the pump and in home heating costs, and the economic stability of many areas of the state which rely on tourism may be jeopardized if the number of persons traveling to Missouri's vacation destinations is significantly reduced due to increased gasoline prices; and

WHEREAS, the trucking industry, heavily dependent on the availability and price of gasoline and diesel fuel, has been especially hard hit by the increase in fuel costs that have resulted in a significant increase in the transportation costs associated with the delivery of consumer goods throughout the state. Such an increase in cost to the trucking industry will inevitably be passed along to consumers as an increase in the price of consumer goods; and

WHEREAS, the increased petroleum fuel costs is particularly detrimental to Missouri family farmers because it comes at a time when overall market prices are low; and

WHEREAS, fuel prices could be reduced by increasing domestic production and encouraging the development of markets for products that can be used as the source material for renewable alternative fuels:

NOW, THEREFORE, BE IT RESOLVED that the members of the Missouri Senate of the Ninety-first General Assembly, First Regular Session, the House of Representatives concurring therein, hereby urge the United States Congress to actively address the issue of fuel prices and take immediate actions necessary to reduce our nation's dependency on foreign petroleum sources and boost our own economy by:

(1) Enacting reasonable price supports for domestically produced crude oil and in other ways encouraging exploration for domestic petroleum sources in a manner that does not adversely impact the environment;

(2) Encouraging and creating incentives for fuel conservation measures that do not harm the economy; and

(3) Encouraging and creating incentives for research, development and use of alternative fuel sources, including ethanol and other fuels made from renewable materials that would not only reduce our dependency on foreign petroleum, but also have the potential to improve environmental protection and boost local economies; and

BE IT FURTHER RESOLVED that the Secretary of the Senate be instructed to prepare properly inscribed copies of this resolution for the President of the United States Senate, the Speaker of the United States House of Representatives, and each member of the Missouri Congressional delegation.

"67.571. 1. The governing body of any county of the first classification with a population of more than eighty-two thousand inhabitants and less than ninety thousand inhabitants may, in addition to any tourism sales tax imposed pursuant to sections 67.671 to 67.685, by a majority vote, impose a sales tax for the funding of museums and festivals. For purposes of this section, the term "funding of museums and festivals" shall mean:

(1) Funding of museums operating in the county, which are registered with the United States Internal Revenue Services as a 501(C)(3) corporation and which are considered by the board to be tourism attractions; and

(2) Funding of organizations that are registered as 501(C)(3) corporations which promote cultural heritage tourism including festivals and the arts.

2. Any question submitted to the voters of such county to establish a sales tax pursuant to this section, shall be submitted in substantially the following form:

"Shall the county of (insert the name of the county) impose a sales tax of (insert rate of percent) percent to be used to fund (museums, cultural heritage, festivals) in certain areas of the county?

Yes No"

3. If a majority of the votes cast on the proposal by the qualified voters voting thereon are in favor of the proposal, and the tax takes effect pursuant to this section, the museums and festivals board appointed pursuant to subsection 5 of this section shall determine in what manner the tax revenue moneys will be expended, and disbursements of these moneys shall be made strictly in accordance with directions of the board which are consistent with the provisions of sections 67.571 to 67.577. Expenditures of these tax moneys may be made for the employment of personnel selected by the board to assist in carrying out the duties of the board, and the board is expressly authorized to employ such personnel. Expenditures of these tax moneys may be made directly to corporations pursuant to subsection 1 of this section. No such tax revenue moneys shall be disbursed to or on behalf of any corporation, organization or entity that is not duly registered with the Internal Revenue Service as a 501(C)(3) organization.

FIRST REGULAR SESSION

FIFTIETH DAY--WEDNESDAY, APRIL 4, 2001

The Senate met pursuant to adjournment.

"I will sing aloud of your steadfast love in the morning. For you have been a fortress for me and a refuge in the day of my distress." (Psalm 59:16)

Journal of the Senate

FIRST REGULAR SESSION

FIFTY-FIRST DAY--THURSDAY, APRIL 5, 2001

The Senate met pursuant to adjournment.

President Pro Tem Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

"God's firm foundation stands bearing this inscription: 'The Lord knows those who are his.'" (1 Timothy 2:19)

Merciful God, we complete a week knowing we are not nearly done with the work we have to finish and are increasingly concerned by it. But help us dear Lord that we do not forget those You have entrusted to us to love and to care for. May our time away from here provide us with opportunities to be mindful of the stresses and loneliness that our families feel as we are so preoccupied with our responsibilities. May we draw those we love closer to us and share the joy of what it means to be married and have children and grandchildren. Bless us with Your word and presence as we join others to worship You this weekend. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal of the previous day was read and approved.

Photographers from the Associated Press were given permission to take pictures in the Senate Chamber today.

(10) Refusal to allow the ACFA compliance official access to inspect any records required by sections 273.325 to 273.360 or any animal, premises, area, equipment, vehicle or facility required to be licensed or inspected pursuant to sections 273.325 to 273.360.

2. The director shall revoke a license, and shall refuse to issue or renew a license, when the applicant has been convicted of, or has pled guilty or nolo contendere to, any violation of local, state or federal law involving mistreatment, cruelty, neglect or abuse of animals or fined by the United States Department of Agriculture for a violation of the Animal Welfare Act, 7 U.S.C. Section 2131, et seq., involving mistreatment, cruelty, neglect or abuse of animals. When a license is revoked, denied, or not renewed due to a fine or fines levied by the United States Department of Agriculture for a violation of the federal Animal Welfare Act, the applicant or licensee may request an administrative hearing pursuant to chapter 536, RSMo.

3. Notwithstanding the above provisions, if failure to comply with any of the provisions of sections 273.325 to 273.360 results in substantial risk to the health or welfare of the animals under the licensee's care, custody or control, or on the premises owned, leased or managed by the licensee, the license shall be immediately suspended pending the outcome of any legal, administrative or other proceeding.

4. In exercising discretion granted pursuant to this section whether to issue, renew, or revoke a license, the director shall consider criteria including but not limited to, the frequency or severity of the offense or offenses, and the overall condition, health and welfare of the animals involved.

5. Whenever a license is revoked, denied or not renewed, the director shall investigate or inspect the facility as permitted by section 273.331 no sooner than thirty days after, and no later than ninety days after, the revocation, denial or non-renewal to verify that there is no evidence of activity that should otherwise be licensed pursuant to sections 273.325 to 273.360. If upon such investigation or inspection, there is evidence of continuing activity which should otherwise be licensed pursuant to sections 273.325 to 273.360, the director shall initiate legal, administrative, or other proceedings to enforce and collect the appropriate fines and penalties. The ACFA compliance official shall report any continuing activity which should otherwise be licensed pursuant to sections 273.325 to 273.360 to the local law enforcement authority and local animal control authority. In addition, the ACFA compliance official may report such activity to any humane organization as he or she deems appropriate. It shall be a class A misdemeanor for a licensee to engage in any activity required to be licensed pursuant to sections 273.325 to 273.360 with another person whose license has been revoked, denied or not renewed.

6. Whenever a license has been revoked, denied or not renewed, prior to issuance of a subsequent license, a full and complete reinspection of the premises or of any facility operated by the licensee in question shall be required. Any such reinspection shall require a one hundred dollar fee. Following revocation, denial or non-renewal of a license, the change of ownership or transfer of property in question into another person's name shall not justify any failure to reinspect the premises by the director. If a subsequent license is issued, all parties previously notified in subsection 6 of this section, shall be notified by the director of such reinstatement.

7. Operation of an animal shelter, [pound or dog pound] **animal distributor premises, auction, municipal shelter, boarding kennel, commercial kennel, contract kennel, pet shop, or exhibition facility, or activity as a commercial breeder, intermediate handler or dealer** without a valid license shall constitute a class A misdemeanor.

273.331. **1.** A license shall be issued only upon inspection by the state veterinarian, his designee, or an [animal welfare official] **ACFA compliance official**. [A facility subject to the provisions of sections 273.325 to 273.357, at the time it applies for licensure, shall be granted a provisional license which shall allow operation of the facility until the facility is inspected or until December 31, 1994, whichever earlier occurs.] **A license shall be denied if entry and inspection of premises or vehicles used to transport or house animals is refused. Notice need not be given to any person prior to inspection or reinspection.**

2. The [state veterinarian] director shall have the duty and authority to inspect all facilities licensed under sections 273.325 to [273.357] 273.360. Inspections shall be conducted a minimum of once [a year, or] within each twelve-month period. In addition, one-fourth of all facilities inspected during each twelve-month period shall be reinspected. Notice need not be given to any person prior to reinspection. Upon a complaint to the department regarding a particular facility[. The validity of the complaint will be ascertained by the state veterinarian or his designated representative.], an additional inspection shall be conducted to determine the validity of the complaint. However, if the director determines there have been two or more documented unsubstantiated complaints regarding the particular facility the director shall have discretion as to whether the particular facility will be inspected. Pursuant to section 273.331, the identity of any named complainant shall remain confidential except to employees of the director when such identity is necessary to validate and substantiate complaints within the normal course of their duties and shall not be released to any person or agency without the express written consent of the complainant, or unless required to be released to a court of competent jurisdiction. For the purposes of this section, an unsubstantiated complaint shall be one that does not reveal a violation of any provision of sections 273.325 to 273.360 after an inspection has been conducted. Any person who intentionally makes a false complaint to the director shall be guilty of a class A misdemeanor.

3. Any person acting as a ACFA compliance official who intentionally fails or refuses to make an inspection or conduct an investigation pursuant to sections 273.325 to 273.360 shall be subject to suspension or dismissal.

4. Any person acting as an ACFA compliance official for purposes of inspecting and conducting investigations who knowingly falsifies the results or findings of any inspection or investigation pursuant to sections 273.325 to 273.360 shall be guilty of a class D felony.

5. Any person making inspections pursuant to this section shall be comprehensively trained in the requirements of sections 273.325 to 273.360 and any rules and regulations promulgated thereunder; identification of symptoms of disease, injury, neglect and abuse in animals; state law regarding neglect, abuse and control of animals; basic principles of animal behavior and proper handling and hold a national animal control association or national cruelty investigation certificate. Such training is to be completed within the first twelve months of employment as an inspector.

6. The director shall promulgate rules and regulations which will implement a uniform and consistent method for inspecting facilities licensed pursuant to sections 273.325 to 273.360. Such rules and regulations shall include, but not be limited to, inspection of the following areas:

(1) Adequacy of shelter, including conditions of sanitation and ventilation;

(2) Adequacy of food and water;

(3) Maintenance and verification of records of acquisition and disposition of animals in the custody of the licensee; and

(4) Adequacy of health and veterinary care.

7. If the director enters into a memorandum of understanding with the United States Department of Agriculture to ensure thorough and efficient inspections for facilities licensed pursuant to sections 273.325 to 273.360 and the Animal Welfare Act, 7 U.S.C. Section 2131, et seq., the director shall retain primary responsibility for the enforcement of sections 273.325 to 273.360.

8. Animal care facilities act compliance officials shall report any and all violations discovered during any inspection of a facility licensed pursuant to sections 273.325 to 273.360. A record of the violation shall be created and maintained by the director and a copy of the violation report shall be provided to the facility and the political subdivision in the case of a publicly-owned facility. The director shall promulgate rules and regulations to:

(1) Track reporting of violations;

(2) Monitor repeat violations; and

(3) Increase the frequency of inspections for repeated violations.

9. Records of all inspections pursuant to this section shall be maintained in the offices of the director. Records of inspections shall not disclose the identity of complainants without the express written permission of the complainant, and shall be available for public inspection during regular business hours.

273.332. 1. No employee, appointee, or designee of the state or any of its agencies, shall be allowed to perform any action required or permitted by sections 273.325 to 273.360, or the rules and regulations promulgated by the director thereunder, if there exists a conflict of interest.

2. A conflict of interest is created by, but not limited to, the following circumstances:

(1) The impartiality of the employee, appointee or designee, of the state or any of its agencies, is limited by that person's responsibilities to a third person or business interest, or by that person's own interests;

Journal of the Senate

FIRST REGULAR SESSION

FIFTY-SECOND DAY--MONDAY, APRIL 9, 2001

The Senate met pursuant to adjournment.

President Maxwell in the Chair.

Reverend Carl Gauck offered the following prayer:

"A saint is one who walks when he walks, who talks when he talks, who does not dream while listening, who does not think while acting."
(Anonymous)

Gracious God, we gather once again to analyze what is before us. Let us be saintly in our attentiveness of what is presented to us and what is said for our discernment. Let us be fully alert to what is best for the people of this state and help us provide assistance that may improve legislation we are asked to pass. But to do so we need Your presence and guidance this week and therefore ask for Your blessings in this way. In Your Holy Name we pray. Amen.
